About Us

Established in 1991, RANE OVENS has flourished under the leadership on Mr. Pratap R. Rane. Our company has experience of more than twenty-eight years in the industry. We offer a comprehensive scope of Industrial Ovens. At present, we are recognized as a pioneer specialist in manufacturing and designing of Import Substitute and Custom-Built Industrial Ovens. Pune, Maharashtra is the establishment place of our company. The leading Indian Industrial Oven manufacturers such as Traction, Auto, Industrial, and VRLA have availed our ovens for numerous applications, for example, drying, heat treating and curing processes. Our designing team follows up with recent quality standards to design ovens in compliance with the requirements of our customers.

Mr. Pratap Rane is a charismatic and goal-oriented founder and director of RANE OVENS. He is the sole supporter and guide of our company. Mr. Rane has done Master of Science in manufacturing technology. He was also a top-performing student from The University of Massachusetts, USA. It lays a solid technical foundation to our company. Our director, managers and skilled workers have techno-commercial ability, rich experience, and loyalty with the company. They all are attentive and sensitive to the market demands and fully cooperate during different operations. From designing to product dispatch and installation, everything is handled by our experts. Since 1991, our company has installed many ovens through the world.
