About Us

Bioline Environmental and Recycling Solution Group delivers innovation under the brand name **KAMINOX** that is many steps ahead of the environmental regulation compliance. In the current scenario, environmental control and recycling is becoming a critical and crucial aspect of all businesses as we have just one place to live, and so we need to ensure a clean environment at all cost. All the equipments designed, manufactured, installed and maintained by Kaminox is centered to this goal.

We possess specialization and expertise in designing your environmental control system and recycling plants at a new facility. We can also accept job works for retrofitting an installation at client's existing plant. We rely on our efficacious technologies to provide you cost-effective, durable and guaranteed results.

- ✿ We do turnkey project for setting incineration plants for biomedical, hazardous, chemical waste, and crematoriums treatment facilities
- ✿ Apart from we shown our depth of innovation metal recycling plants for zinc, lead and aluminum
- ✿ To keep clean our environment we have gas scrubbing solutions.

Kaminox Industries is supported with executives having more than a decade of experience. Their work has been acknowledged and rewarded by many in the industry. Today, we are established and popular for our dedication to deliver top quality equipment for assorted applications along with taking job works for its post sale services.

- ✿ The devoted as well as cumulative hard work of KAMINOX team members has been instrumental in manufacturing and delivering a huge range of Air Pollution Control Equipment and Recycling Plants like Biomedical Waste Incinerator, Cyclone Separator

Assurance of High Quality

Quality is one such element our company never compromise with and it reflects in our superior quality products which are made in adherence to ASTM, BIS, CE, CPCB WHO-GMP, DIN, EPA and GMP standards. In the pursuit of excellence, our production team utilizes hi-tech CNC Turning, Bending, Welding, Drilling and other machines. Through these machinery and latest technology, we are fabricating an unparalleled range of Portable Electrical Incinerator, Recycling Plant, Clean Air Equipment, etc. As we are dealing in different categories of products, they are tested by the quality checking experts on different technical parameters.

Our Products

**Aluminium Alloy Ingot
Manufacturing Plant**

Zinc Oxide Manufacturing Plant

UBC Can Recycling Plant

Lead Recycling Plant

TRF Furnace

Skelner Furnace

Combustion Fan

Air Pollution Control System

Gas Scrubber System

Centralized Dust Extraction System

Cyclone Separator

Metal Shredder Machine

Induction Furnace

Aluminium Melting Furnace

Magnetic Separator

Eddy Current Separator

Crucible Furnace

Aluminium Dross Processing Plant
