## About Us

"Prime" Disin Chem Pvt. Ltd. was established in 1996 with the primary motive of manufacturing disinfectants, deodorants, deodorising cum disinfectant fluids and disinfectant Powder, under the brand names DUCK PREMIUM, PRIMANOLE AND PRIMAZOLE.

As specialists in disinfectants, "Prime" formulates and manufacture disinfectants and allied range of cleaning & hygiene products and their CONCENTRATES designed to meet the growing concerns of today's Health-caring Community. At a time when "getting something" is just not enough, our Disinfectants and allied cleaning products, with their unique combination of power and ease to handle helps in fight against infectious diseases by keeping the surroundings clean.

Since its inception "Prime" has earned a name for quality, reliability and top performance in the domestic markets. Support and loyalty from customers has provided a solid foundation for the business, which has also developed an enviable Portfolio of Quality Products to supply the challenging needs of the business market Place.

The primary vision of "Prime" has always been delivering the biodegradable, clean and hygienic solutions and their CONCENTRATES to protect the environment in which people live and work.

Since its inception the "Prime" is providing an array of household, institutional, industrial and personal cleaning products. Our qualified and professional team understand your need and challenges and we try our best to fulfil cleaning expectations of individuals and corporate.

Today "Prime" is proudly equipped with global certifications like ISO 9001, ISO 14001, ISO 50001, ISO 10001, Green compliance, TQM and GMP. The process of learning and implementation of quality procedures is eternal here in "Prime".

The endeavor of "Prime" is to consistently manufacture top quality products.
