About Us

Established in 2016, Yatika Aluplast has found a strong foothold in the market as a supplier of industrial powders. We are a Surat-based manufacturer and supplier of PVC Scrap Powder, Low Carbon Ferrochrome and Atomized Aluminum Powder. These are used in several industries as these are reliable, economical, accurate to compose. Our products are manufactured while utilizing the latest machinery and technology available in the market. We are also supported by a wide-spread warehousing unit which allows us to store our products in an organized manner under the supervision of our warehousing experts.

Over the years, we have always put efforts to satisfy our customers. We have designed a customer support division which is run by a team of customer support executives. These executives communicate with our customers and make sure that their queries are solved on time. In addition, our company is supported by a skilled group of specialists who help us achieve our unique objectives and the highest degree of customer satisfaction. Our quality controllers are familiar with the international quality standards and make sure that we follow them throughout the production process. Additionally, we get benefits from a vast distribution network that enables us to meet our deadlines for product delivery.
