SHARPEGE EXCEED MODEL 1000

- The all new breed of Saw Blade sharpener is the result of years of practical experience and constant urge to produce something new.
- The vertical movement mechanism is superbly designed to last years of constant operation.
- All controls are well placed for easy setting of cutting angle, tooth depth and pitch of the Saw Blade.
- The result is superbly sharpened Saw Blade in double quick time.
- The self-centering blade holding mechanism helps in holding any thickness of blade.
- This also helps in controlling the noise and the vibrations during sharpening.
- All the controls are capable of fine movement control.
- All parts are of alloy steel and those under stress and subjected to wear and tear are hardened and ground.
- Electrical controls are well placed.
