About Us

Mr. Jatinder Singh Panesar is the backbone of our company, **Panesar Engineering Works**. Founded on the pillars of core values like integrity, honesty, quality and reliability, we have been excelling as a **manufacturer** and **supplier** in the Indian market. To be looked upon as a reliable one, we put in all our efforts and keep focusing on enhancing our manufacturing skills and manufacturing tools. This leads us to constantly improve ourselves and strongly hold our position as the most sought after business partner to buy **Rice Milling Machine, Saw Cutting Machine, Chapati Making Machine, Rice Sifter Machine and other machinery**, from us. We even go beyond our boundaries to meet the quality standards laid by industrial experts and surpass the expectations of our customers in terms of machine specifications, quality and functionality. Some other factors for which we are considered the best are as follows:

- Systematic work approach
- Better than ever deals
- Quick query response
- Prompt order delivery

Infrastructural Facility

No matter in what business line one is, having a spacious and state-of-the-art infrastructural facility is of prime importance. In the view of this aspect, we have built a modern looking and functioning facility over 1,00,000 square feet area in **Punjab, India**. We have segregated our entity into different units and equipped each unit with technologically advanced machinery for enhancing our production rate without compromising on quality. For instance, our manufacturing unit is outfitted with planner machine, drilling machines, lathe machine, welding machine and many other tools for bringing forth an innovative line of **Rice Milling Machine, Saw Cutting Machine**, etc.

We have created an in-house production and storage facility to adequately manage both bulk and individual orders. Our large warehouse is 50000 sq. ft. with a 70000 sq. ft. open space. We use an integrated variety of specialized packaging capabilities to assure the safe delivery of our products.

Our Clients

Our final goods are exported to different demanding and extensive markets worldwide. The offered product portfolio is used in many rice mills for its durability and speed. We help with quality and new technology in rice milling. We are also proud of our reputation for putting the consumer first. Some of our major clients are:

- Hafed (Haryana)
- Markfed (Punjab)
- L. T. Overseas
- Pari Rice
- Satnam Overseas
- Deva Singh Sham Singh
- Sadhu Singh Gurdip Singh
- Sun Star Overseas
- NavBharat Exports
- Laxmi Industries

Logistics

There is no denying the fact that having support of well-managed logistics minimizes cost and enhances efficiency. Besides, it allows easy monitoring of inventory levels and allows businesses to experience a huge reduction in expenses in different aspects, be it storage or shipping cost. As a result, business like us attain their set goals on-time. Realizing this aspect, we have set up a widespread and well-managed logistics network that not only supports us in aforesaid areas but also helps with doorstep and timely delivery of **Saw Cutting Machine, Rice Milling Machine** and all other machines across different Indian location.

About Group Companies

We belong to Panesar Group of Industries, serving the industry since 1963 by manufacturing reliable machines. Apart from having us, the group has the following renowned companies under it:

- Panesar Brothers
- Panesar Industrial Corporation
- Tarn Taran Foundry & Engineering Works

Quality Control Process

We have maintained our high-quality production method. Each product is submitted to a series of rigorous quality testing to ensure that it meets our standards. Our products are thoroughly inspected throughout production and before shipping, and our quality assurance department is in charge of all these duties.

Product Customization

We can build customized rice milling spare parts and machines. Each manufacturing parameter is carefully planned and implemented to achieve a distinct spectrum of product attributes that precisely satisfy the requirements of our customers.

Our skilled engineers add their unique touch to the manufacturing process of **Saw Cutting Machine, Rice Sifter Machine, etc.**, to create a personalized selection of goods. They are fully supported by CAM, CAD, Auto CAD, and other modern design applications.

Our Strengths

We inherited several strengths that set us apart from the competitors in the industry. Using these distinctive traits and strengths, we have steadily improved our position in this field. Our strengths include:

- Less lead time
- Affordably priced products
- Access to contemporary manufacturing
- Customized product range
- Strong R&D activities
- On-time delivery
- Committed staff for after-sales services

Dedicated Team

Our trained personnel works tirelessly to enhance our daily operations and adapt to new services. The extensive industry experience and commitment of our experts to client service drives them to design and provide high-quality products.
