## About Us

An array of doctor-recommended and industry-approved medicines and injections are being made available by us, Neozen Healthcare LLP, to a large customer pool. Our product range caters to different medical requirements of the customers successfully. We are a notable manufacturer, trader, and exporter in the market. Our products include Barium Sulphate Powders, Nimotuzumab Injections, Lisinopril Tablets BP, Gefitinib Tablets IP, and more. All the products mentioned above are formulated with quality ingredients from our trustworthy vendors. Our vendors are widely recognized and renowned in both the global and domestic markets for offering safe-to-use materials. Therefore, as we deal with high-end customers in the industry, our products to serve our customers hold premium-quality features such as longer shelf life, high effectiveness, safe usage, etc. It is because of these features that our products are in high demand by customers residing all over the globe.

Since the beginning of our journey, gaining 100% customer satisfaction has been our primary goal and greatest motivational force. To achieve the same, we undertake all the best possible measures we can. Starting from enhancing the quality of our offered Barium Sulphate Powders, Nimotuzumab Injections, Lisinopril Tablets BP, Gefitinib Tablets IP, etc., to delighting the customers with a worthwhile experience in exchange for competitive prices, we do it all. We manufacture the products from quality materials; hence, our team of proficient professionals cross-checks the products on various parameters to be doubly sure. Furthermore, to guarantee a satisfactory customer experience, we work hard to streamline all our business operations. By doing this, we can provide a smooth onboarding experience, prompt after-sales service, timely delivery of the products, and, most importantly, serve our products at fair prices.
