## About Us

Established in 2017, IG Drives And Systems (IGDS) is a renowned manufacturer of Motor Protection Device, IGDS Cycle Timers, Mobile Motor Starter, Automatic Light Controller and other high-quality engineering products. We are recognized for its technical excellence and innovative, often patented, solutions. We specialize in offering advanced engineering services tailored to client requirements, including power system measurement and protection, industrial testing, and allied devices. Our team of skilled engineers ensures every solution we deliver is efficient, cost-effective, and technologically forward. We are passionate about building new customer relationships and delivering solutions that truly make a difference.

We also brings a unique edge with AI-based design and development capabilities. We translate complex ideas into real-world products for global clients across medical, automation, automobile, power, and process industries, with a focus on delivering intelligent, high-performance systems. We are committed to maintaining the highest standards of integrity and transparency in all our business dealings, ensuring long-term, trustworthy relationships with our customers.
