About Us

Set up in the year 2018, **Shreeya Enterprise** is a well known company and is manufacturer and trader that provides a remarkable exhibit of **Cable Tie, Cable Gland, SMPS, Air Vents, Switch Gears, Electrical Channel, Cooling Fans, GLASS FUSE, Interface Converters** etc. These products are widely known for their sturdiness, long life and exact measurements. They are produced by the use of preeminent quality information sources and propelled machines at the premises of our merchants as per the client's requirements.

Everyday, we ensure that only properly manufactured, quality tested and packed products leaves our facility. Our offered range is manufactured by using best in class raw materials, technology and machines. In addition to this, the quality tests are conducted stringently on our range on parameters including quality, design, dimensional accuracy and durability. Due to this, we deliver perfect products to customers, at all times.

What Speaks About Our Work?

Our quality products that function without any hassle and pack products in a fine manner speaks for our work. We use best quality material, industrial components, fasteners, etc., for making a quality machines line. Our investment in right technology helps us in developing products that work smoothly and doesn't require much maintenance.

Quality tests that confirm perfection in built, design, structure, finish and working are performed on each of the product. Positive result of the tests helps us in giving surety to our customers for right working and longer serving of **Air Vents, Switch Gears, Electrical Channel, Cooling Fans, GLASS FUSE, Interface Converters** etc.
