About Us

Regal Iron & Steel Works has been a major in the field of metalworking machinery. We are focused mainly on the Sheet Corrugation Machine, Sheet Metal Corrugation Machine, Straightening Machine, Metal Straightening Machine and Sheet Cutting Machine. Established in 1962, we possess a rich experience and deep know-how of the industry. We keep up with modern process and technology that help you achieve high productivity and low labor costs. We have established ourselves as a dependable manufacturer, wholesaler & global supplier of Sheet Processing Machines.

Our product line has gained immense appreciation by our clients for its performance, robust construction, easy maintenance and low power consumption. The products find their broad applications in diverse industrial sectors like sheet metal, metal engineering, and many others. Also, we have earned a large clientele in various countries including Sri Lanka, Nepal, Bangladesh, Ethiopia, Tanzania, Madagascar, Mali, Congo, Ghana, Ivory Coast and Mozambique etc. We have a strong team, modern facilities and great capability to design, engineer and make a complete range in compliance with applicable regulatory requirements & global standards. By following the principles of professionalism, hard work, integrity and ethical business practices, our company has set a trusted position in this domain. Under the healthy guidance of our mentor, Mr. Masood Qamar, we have reached a desired point in both the local and international market. His wisdom and industry expertise have enabled us in meeting the varied demands of our clients in an efficient & effective way.

**Key Facts**

Nature of Business	Manufacturer
Primary Competitive Advantages	Manual Cut to Length Machine, straightening machines, straightening machines, Automatic Cut to Length Machine, corrugated sheet cutting machine, corrugated sheet machine
No of Staff	40
Year of Establishment	1976
OEM Service Provided	No
Product Range	Manual Cut to Length Machine, straightening machines, straightening machines, Automatic Cut to Length Machine, corrugated sheet cutting machine, corrugated sheet machine

Our Products

Automatic Cut To Length Plant

Automatic Cut To Length Machine

Straightening Machine

Pinch Roll

Run Out Conveyor

Galvanized Sheet Corrugation Machines

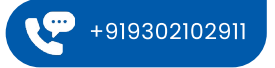

Decoiler Shaft

Manual Cut To Length Machine
