Wu Han BCX Laser Technology Co.,Ltd

Technical Data:

Model	BCX-P600
Main features	stainless steel case / black aluminum shell, color touch screen
Machine size	length 130X width 128mmX high 200mm
The printing range	360 degree omni-directional printing, whether onward to any code, to meet the needs of
Print font	font GB, built-in Pinyin input method, touch online editing, no need to connect the computer
Jet printing fonts	high and clear print fonts dot matrix font, a variety of Chinese and English font
Spray printing graphics	can be sprayed with a variety of trademark design, graphics can be imported through U
Spray printing accuracy	600DPI
Spray into the number one to eight lines	adjustable
Printing bar code	bar code, two-dimensional bar code
Spray distance	2mm ~ 2mm-5mm (nozzle to be sprayed object distance) 10mm jet printing effect is the best
Running water number	1-8 variable sequence number
Automatic printing	date, time, number, frequency and serial number
Stored information	the system can store more than 1000 of the mass of information

Address: A1205, Guanggu Int'l Shanghai Bldg., Jiayuan Road,
Donghu Technological Development Zone, Wuhan, Hubei, China (Mainland)(430200)

Feature

U disk will be stored information can be saved)

Information length: each message is printed in more than 2000 fonts, the length is unlimited.

Jet printing speed: up to 70 m / min (continuous printing) spray printing speed is not due to the increase in the number of lines

The use of quick drying ink: environmental protection printing ink, water-based ink, oily ink

Ink color: black, red, blue, yellow, green, white

Ink cartridge capacity: 50 ml, a box of ink can be sprayed with 8 million font (2mm)

External interface: DB9, DB15, USB, optical interface, can be directly inserted into the U disk import information

The parameters of power supply: DC16.8V lithium battery charging time can be ten hours (enable screen saver) 20 hours standby time

Control panel: smart touch screen (which can be used for general wireless mouse control, also can be edited on the computer after the adoption of U disk)

Machine weight: 1.18 KG

System power consumption: the average power consumption is less than 5W

Temperature: 0 ~38, humidity 10%~80%

Spray printing material: wood board, carton, stone, medium and fine board, light steel keel, pipe, metal, plastic, aluminum foil, cable, etc.

Wu Han BCX Laser Technology Co.,Ltd

Optional Parts:

			
<p>Conveyor belt</p>	<p>Ink cartridges</p>	<p>Whole Package</p>	<p>Other parts</p>

Wu Han BCX Laser Technology Co.,Ltd

Packaging and Shipping	
Delivery Term:	FOB Shanghai Port.
Payment Term:	By T/T Payment
Delivery time:	Within 5-7 days after receive your payment.
Packing:	Wooden Box Comply with International Export Standard.
Quality Guarantee Terms:	Quality guarantee term is for 12 months. Malfunctions which are caused by machine and quality will be responsible for our manufacturer. Other malfunctions which are caused by operation mistakes, man-made problems, etc will be responsible for clients-self.
Validity Time:	The period of validity for this quotation is 4 weeks.

After Sale Service

- 1.Before delivering the machine, we will test and adjust it, so you can use it directly when you get it. (If you use our computer and provide samples)
- 2.VCD & User Manual will be sent to clients to help them better use the machines.
- 3.Any problems occur while using, professional advice will be given by us.
- 4.Lifelong maintenance service;
- 5.Lifetime software free upgrades;
- 6.Engineer door to door training or maintenance if needed.

Thank you for your business!

Should you have any enquiries concerning this quote, please contact us without any hesitation.
