About Us

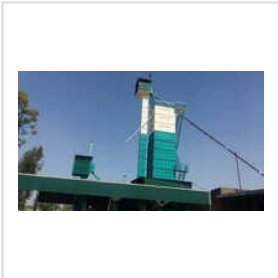

RSA Mechanical Works, based in Rajpura, Punjab, India, is a leading manufacturer and supplier specializing in high quality rice processing machinery. With years of expertise and a strong commitment to innovation, we deliver state-of-the-art equipment including Double Taker Paddy Clener, Semi Automatic Rice Polisher, Paddy Husker Machine, Bucket Elevator Conveyor and much more. Our products cater specifically to the diverse needs of the rice milling industry, ensuring enhanced efficiency, durability, and superior output quality.

We prioritize precision engineering and robust manufacturing practices. Our experienced team utilizes advanced technology and stringent quality control measures to develop machinery that meets international standards. We understand the critical role of each component in the rice processing line and thus focus on designing equipment that maximizes productivity while minimizing operational costs. Customer satisfaction drives our approach, and we work closely with clients to provide tailored solutions that match their production goals and facility specifics. Our seamless supply chain and reliable service network enable timely delivery and excellent after sales support, making us Committed to continuous improvement and innovation, we strive to contribute to the growth of the rice processing industry in India and beyond by offering efficient, sustainable, and cost effective machinery solutions. Choosing us means opting for quality, reliability, and technological excellence.
