## About Us

Mahata Electrical And Engineering Private Limited is a reliable name in the market known for providing customers with an advanced range of solar lights. We began our journey in 2011 in Jhargram, West Bengal as manufacturer of Semi Integrated Solar Street Light, LED Street Light, LED DC Flood Light and many more. As a reputed solar lighting supplier, we make sure to check our products multiple times on various parameters prior to packaging. Illumination, design, operation, efficiency etc., are some of the prominent features based on which we validate our products. We have electrical engineers and designers to make sure clients specific requirements are precisely met.

Throughout the years, we have faced and overcome numerous challenges and this would not have been possible without the constant support of our talented employees. We have hired experts who are knowledgeable in the field of semiconductor technologies, optics and material science. Continuous involvement in research work and their ability to innovate have helped us come forth with high quality yet reasonably priced LEDs. We maintain a warehouse, managed by experts, wherein we stock our products. In addition to this, we have achieved a dynamic working atmosphere that enables us to grow as an organization with a stronger and better team.

Key Facts
