iD iPreside

"Empowering Codes"

iPreside: IT Agency

We are a crazy, inventive and a professional team of IT professionals who are into pulling off digital solutions for businesses, bootstrapping startups, enterprises and almost every possible challenge in the digital world. With a lucrative approach, modern tools and state-of-the-art technologies, we are a bunch of nut-heads trying to crack the digital world with an innovative touch or as they say a 'Midas Touch' to it.

As a company, we envision to be a globally-recognized firm - a group of creators, thinkers and innovators that pulls off every possibility to deliver only what is best suited for your business. With a vision of such momentum, we aim to learn a lot during the process and add the finesse to it.

What we do?

Branding

AI&ML

Digital Marketing

Blockchain

Internet of Things

Our Services

1. Website Development

Build world-class web experiences for your business to out-smart your competitors. Scrutinizing your business to deliver smart and flawless solutions, we can help you achieve the digital presence needed.

We work with flexible technology. We adapt it to suit your needs.

1. Static/ Dynamic websites
2. E-Commerce websites
3. CMS

We make it work for you.

Our Services

2. UI & UX Design

It's all about bringing emotions to logic. We map empathy and cognitive science to derive on a product that is not just usable but appealing as well.
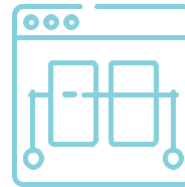

1. Wireframes :
We simplify the story that specifically focuses on prioritization of content, functionalities and behaviors.

2. Visual Design :
We give life to designs by adding visually appealing elements that evoke emotions.

3. Prototyping:
We test the product by creating a usable mockup for initial feedback.

From idea to product, we spread the force of your imagination

Our Services

3. Mobile Application

We believe in building world-class and tailor-made mobile applications. Adhering to the latest tools and technologies we, not just design but create phenomenal outputs.

We combine ergonomy, usability, mobile technology and design, to ensure your information and products are fully accessible to everyone, from everywhere.

1. iOS
2. Android
3. Cross Platform

Now we're getting technical!

Our Services

4. Branding

Your brand is the soul of your company. Every visual representation of your brand - the name, the logo, the symbols, the fonts - convey meaning and create an emotional link between you and your customers.

1. Brand Purpose
2. Brand Positioning
3. Brand Promise
4. Brand Personality & Values
5. Brand Expression

To find yourself, think for yourself.

Our Services

5. Digital Marketing

We look at the big picture before drilling down to the detail.

We start with a preliminary analysis of your:
1. Objectives
2. Target audience
3. Current digital presence
4. Current overall communication approach
5. Resources (people and budget)

To find yourself, think for yourself.
