## About Us

Ambay Enterprises is rejoiced to represent Ranbaxy Laboratories as a steadfast supplier and trader for eastern zone in the nation. We have launched Magnum Marketing in 2008 for bringing forth laboratory instrumentation promoting microscopy platforms and liquid handling solutions. Our trading and wholesaling company has spread our network across the eastern zone with our efficient supply management channel. We have improved our portfolio by adding molecular biology product line that is sourced from promising brands.

Our company has recently founded a molecular lab (Covid Lab) as a co-venturer, which aids in having authentic validation for molecular kits for diverse companies, which we supply afterwards. Our business unit is currently aspiring to venture into veterinary diagnostics with the hope to make a strong contribution through exceptional immunochromatography tests offering accurate diagnosis in the budget-friendly price bracket. We are a praiseworthy business concern that offers top solutions for customers. Our product line including PCR Machines, LED Microscopes, Biochemistry Analyzers and others is served across the globe.
