Catalog Enrichment Checklist

Based strictly on the fields shown in the supplied catalog source, the following areas are available for enrichment:

- Complete minimum order quantity and unit of measure.
- Add price or price range and unit of price.
- Add product specifications such as marble type, finish, color, thickness, size, density, water absorption and application.
- Add a product video URL; the source states that a YouTube or normal video link can contribute 5 points.
- Complete trade information such as payment terms, supply ability, delivery time, packaging and markets where applicable.
- Complete TI Shopping / ONDC fields where applicable, including GST, returnability, stock, pack size, dimensions, selling price, shipping type, unit and weight.
- Add extra product specifications if additional product detail is available.

Source Note

This PDF is a structured summary of the uploaded TradeIndia catalog text. It does not add values that were not present in the source.
