UNRIPE GREEN PAPAYA POWDER

About Us

Our fast thriving enterprise, Drymac Foods LLP is the definition of purity, natural processing and hygiene maintenance. As a manufacturer and exporter, we are contributing in the Indian and foreign markets effectively with a vast range of Fruit & Vegetable powders that are extracted through unique low temperature spray drying process. Our offered product line includes Vinegar Powder, Tulsi Powder, Tomato Powder, Cheese Powder, Orange Powder etc. By utilizing the freshest and quality assured fruits, vegetables, etc., we generate these quality items that are currently in-high demand in the marketplace.

The innovative approach used by us for processing includes pasteurization of juice concentrated from the fruit or vegetable. It is carefully mixed with effective carrier to ensure stable drying process. This material is further pumped through a nozzle into a heated chamber which has vortex of hot air. With this, rapid evaporation occurs and natural fruit or vegetable powder is remained & collected. The aforementioned items have endless demands in the F&B sector for Confectionery fillings, Dry mixes, Sauces, Desserts, Biscuit fillings, Milkshakes, Yoghurt drinks, Compression tablets, Giving body to Powdered Beverages, Baby food, Chewy tablets and many more.

Key Facts

Nature of Business	Manufacturer
