About Us

Super Hydromatics is a subsidiary of Alwar-based **Super Engineering Company**, which was started by **Late Shri Omprakash Mason**, affectionately known as the Doyen of the Hydraulic Industry, in **2003**. **Super Engineering Company** began producing hydraulic solutions as a manufacturer in response to the needs of clients. Our company has been successfully manufacturing **Hydraulic Bottle Jacks, Hydraulic Pressure Jacks, Hydraulic Toe Jacks, Leaf Spring Hydraulic Jacks, Hydraulic Trolley Jacks**, and other hydraulic products for the last 17 years. We are founded with the primary goal of giving the highest level of customer satisfaction. We also do ongoing market research to understand the individual needs of our clients better and aim to meet them.

Our Facilities

Our manufacturing facilities are well-facilitated with technologically modern tools and essential equipment, allowing us to achieve the highest degree of client satisfaction. In addition to that, our infrastructure is dispersed across a large region and divided into several divisions to provide a smooth and orderly production process. Senior management oversees the departments, ensuring the best collection built with up-to-date equipment and facilities. Manufacturing, warehousing, quality control, and packaging are the three divisions.

Our Team

Our company is backed by a highly skilled team of specialists that has helped the company become among the leading names in the industry. Our employees have extensive expertise in their respective fields, allowing them to manage any emergency circumstance that may arise throughout the processing stage with ease. We are a well-known producer of high-quality Hydraulic Bottle Jacks, Hydraulic Toe Jacks, Hydraulic Trolley Jacks, and other items. Because of our honest transactions, we have become the preferred option of our prestigious clientele.
