About Us

We, Network Techlab India Pvt Ltd, are a leading enterprise in the IT sector of the country, renowned for offering customized solutions to clients nationwide. Not just IT sector, we are also catering to the energy & power solutions, infra & monitoring automation analysis control (IMAAC), office automation, audio visual solutions and rental infrastructure requirements of clients. Without a single break, we present customers with their requested items like Rental Servers, Precision Air Conditioners and much more. Our team of more than 600 adroit professionals helps us in meeting such demands of clients without a single fail. We are a famous trader having branches across 11 major cities of the country such as Mumbai, Ahmedabad, Vadodara, Vapi, Pune, Bangalore, Chennai, Delhi, etc. Having these strategically established branches has been of great help to our enterprise since the start. Relying on such a vast network, we meet all of our client's demands timely.

In addition to working as dealer of such a marvelous assortment, our company also takes on the responsibilities of a service provider. We rigorously work hard to render the best Document Scanning And Digitization Services, Network Security Services, etc. to customers. We also render top class customer support services to all.
