## About Us

**S.R.I Wires And Cables** has expertise in delivering premium cable solutions to clients across the country. We are manufacturing an expansive range of **LT Power Cables, LT Twin Flat Cables, LT Armoured Cables and more along with ACSR Conductors and Aerial Bunched Cables**. These are manufactured with the assistance of experienced staff committed to offering exceptional quality products backed by customer services. Working in collaboration, our employees help us in bringing forth safer and robust products at best prices. All the aspects of manufacturing processes are controlled and minutely observed to ensure our clients receive cables of highest quality, always. Besides, our sales team is always available and remains in direct contact with customers, thereby helping us meet their needs and requirements timely and efficiently.

We adopt a collaborative approach and work alongside our customers, from the moment we receive an inquiry until the completion of order. We use our engineering and technical expertise to design, manufacture and install the perfect cable solution for meeting the application specific needs of clients. Whether our clients want Aerial Bunched Cables, LT Twin Flat Cable, LT Armoured Cable or quick turnaround time of large orders, our focus remains on adapting to meet their changing needs reliably.

S.R.I Wires And Cables is a new company indulged in bulk production of ACSR Conductors, Aerial Bunched Cables, LP Power Cables, Copper Signaling Cables, etc. These are provided to clients in standard and customized dimensions to match their specific needs perfectly. Whether the order is small or large, we complete it in a timely manner without affecting the quality at any time. Quality control begins from the first stage of raw material procurement and continues throughout, until the order is completed and handed over to clients. This constant focus on quality standards have made us a reliable company in and around Chhattisgarh, India.
