About Us

The fact that IT services play a crucial role in performing daily business operations effectively can never be denied. When rendered properly, IT services can lead to enhanced productivity. Taking this aspect into view, we, Rise Tech Solutions began our business journey as a reliable trader and wholesaler of IT products; ranging from Burglar Alarm System to Biometric Time Attendance System and Voice Mail Systems to Security Camera Systems. Besides, playing our responsibility of a good trading business well, we also work as a service provider and render PRI Lease Lines MPLS Service, Structured Wiring Solution Service, Point To Point Networking Service, Cable Rewiring Service and more to our customers at highly economical prices. The aforesaid and more services that we provide are highly appreciated across the nation and in different businesses because we ensure our customers high value against the money they have invested to buy our products.

Our Mumbai (Maharashtra, India) based business, Rise Tech Solutions, is committed to offer the finest quality products and services to our customers at cost-effective prices. We have entrenched our roots in the market to help our customers develop their businesses by offering them Security Camera Systems, Access Control Machine, Tracking Device Service, etc. Ours is a trusted name in this business line because we work hard to fulfil the demands of our customers. We remain true to our nature of business and always attempt to make our customers happy by ensuring timely delivery of products, providing flexible payment options and using safest mode of transportation for product shipment.
