## About Us

We, **Vinod Electricals**, are a reliable name in the challenging marketplace for purchasing supreme in quality Industrial Transformers. Our company takes pride in manufacturing the best transformers using advanced technology based machines. Minimum noise as well as longevity of life are attributes which make our transformers, a worth investing choice of several clients. We make Industrial Transformers available in different specifications such as 1500 KVA Transformer, 1700 KVA Aluminium Transformer, 900 KVA Aluminium Transformer etc., so as to suffice needs of different clients. Our provided transformers are technologically advanced as well as loved for their hassle free performance.

We are always eager to adopt modern techniques of production to supply an improved range. Hence there is a constant endeavor to update the technology. After much hard work, we have earned the respect of an eminent manufacturer from numerous customers across India. We ensure to maintain quality work in business so as to continue enjoying this aforesaid title. Our working as a reliable service provider is also appreciated by clients. Taking assistance of experienced professionals, we offer Repairing Services.

Based in a prime location of **Delhi (India)**, we, **Vinod Electricals**, are carrying out diverse business operations with ease. Reason behind this ease lies in every business department being fitted with needed tools, machines and other basic amenities for hassle-free working. In and across business location, we are acknowledged for manufacturing the best Industrial Transformers. We have appointed a team that has deep knowledge of industrial science and technology. Because of this, our team assists in producing supreme in performance transformers. We maintain a wide stock of Industrial Transformers in different specifications such as **1100 KVA Aluminium Transformer, 900 KVA Aluminium Transformer, 1000 KVA Aluminium Transformer** etc., so as to timely meet diverse needs of customers in a less time. Stringent quality testing of transformers before the process of delivery helps us to serve customers only the best against investment.
