About Us

Established in 1986, VR Coatings Pvt. Ltd. has emerged as a trusted manufacturer and supplier of advanced coating, dispensing, and spray painting equipment in Pune, Maharashtra, India. With decades of industry experience, we have built a strong reputation for delivering innovative, reliable, and high-performance solutions that cater to the diverse needs of manufacturing, construction, automotive, packaging, and industrial sectors. Our commitment to quality, technological advancement, and customer satisfaction has enabled us to become a preferred partner for businesses seeking efficient coating and dispensing systems. By combining engineering excellence with a customer-centric approach, we continue to provide products that enhance productivity, reduce operational costs, and ensure superior application performance.

Since our inception in 1986, VR Coatings Pvt. Ltd. has consistently focused on developing and supplying high-quality industrial equipment designed to meet evolving market requirements. Over the years, we have expanded our product portfolio and strengthened our technical capabilities to serve customers across India and various industrial segments.

Our growth has been driven by continuous innovation, stringent quality standards, and a deep understanding of industry challenges. Through dedicated research and development efforts, we have successfully introduced advanced solutions that improve efficiency, accuracy, and reliability in coating and dispensing applications.
