About Us

Medical industry has achieved sprawling success in the recent decades, so much so that, each field in medical arena is simplified to a greater extent. A surgery hardly causes any pain and at the same time cures us well. Dentistry has also gained a lot from the scientific advancements and a whole lot of instruments and machines have made dental check ups and dental surgeries a sophisticated task.

Realizing the potential growth of scientific and automatic instruments in the dental industry, we, Modular Dental Equipments, have emerged as one of the leading manufacturers and exporters of dental chairs and dental equipments in India. Our product range comprises of dental chairs, dental compressor, led curing light, ultrasonic scaler and all kinds of dental equipments.

We are distinguished as as a reliable manufacturer & supplier of dental chairs to various institutions, dental colleges, hospitals, dentists and clinics spread across India. By dealing in manufacturing as well as marketing, we have focused on price minimization - i.e., the best products at optimal prices.

Production Process

We are very much particular about quality and believe in innovative concepts, designs & manufacturing processes. Our dental chairs stand for comfort, portability, easy placement and sleek shape. All our dental equipments are manufactured keeping in mind the specific requirements and the essential aspects of dental treatments. We offer our clients the best quality products like dental chairs, dental compressor, led curing light, ultrasonic scaler and various other dental equipments, all at highly reasonable prices.
