HOW IT WORKS : PAPER EDGE PROTECTOR

V- PROFILE

PROVIDES THE GOODS WITH PROTECTION AGAINST DAMAGE

Paper cardboard Edge protector (also called angle board or corner boards) protect against potential damage caused in the course of loading and transportation, thus preventing any unnecessary damage related cost.

Edge protectors protect packed goods from pressure caused by packing material.

Simultaneous use of vertical and horizontal edge protectors provide particularly firm protection for the goods.

Edge protectors provide higher load tolerance and stability to corrugated boxes.

Goods packaged on pallets remain stable and unharmed and the edges of packaged goods are protected against damage.

Protection of the package ends against shock and pressure caused by packing tape.

W- PROFILE

PROVIDES THE GOODS WITH PROTECTION AGAINST DAMAGE

W-Profile edge protectors are suitable for round and oval shaped goods, as well as for goods of various shapes, allowing flexible covering of external & internal corners.

W-Profile Edge protectors protect round edges of a goods.

Both External as well as internal round edges of goods can be protected simultaneously.

Perforated W-profile with suitable step can flexibly help to protect round and straight edges.

Densely perforated W-profile allows to protect the fringes of gaps with small diameters.

W-profile is suitable for sharp edges and can bend at corner.
