

NUSID CLEAN TECH

MADE IN INDIA

Fume Extraction System FUMEX 1000-2M

- Made in INDIA with over 33 years of experience
- Over 99% fume capturing efficiency
- Three stage Filter system for clean air exhaust - Two Pre-Filters, one HEPA Filter
- High Airflow System - 1000 M³/ Hr.
- Easy to replace filters
- Wheels for easy movement
- Extraction Arm with 3 pivot points and 360° rotation
- Extraction hood with double axis adjustment
- High flow filter - 14 M² surface area
- Induction Motor for high life

Airflow	1000 M ³ / Hr
Power	1.5 HP (1.1 kW)
Supply	3 Phase (440V)
Filter Stages	3
Filter Type	Disposable - with easy change system - panel type
Filter Surface Area	14 Sq. M
Filter Efficiency	99.95% (EN1822 - H13 / H14 rated)
Weight	80 kgs. Approx.
Noise	75 dBA at 1.5 Mtrs. distance
Extraction Arm Length	2 Mtrs.
Arm Diameter	150 mm
