About Us

Most companies prefer dealing in particular niche to sustain market excellence. They often show hesitation in embracing a multi-product sales strategy thinking this might not work in their favour. However, we, VIP Import, since embarking on our business adventure knew that we could excel in our field by offering a diverse portfolio of products that would not only make it convenient for buyers to shop for products online from a single platform but also give us a distinct advantage in the process. Without limiting ourselves to a single market or product category, we began exercising our trade caliber to the fullest and contacting the right businesses dealing in various products like Smart Watches, Projector Clocks, Home and Kitchen Accessories, Salon Equipment, Fitness Equipment, Car Accessories, LED Panel and Street Lights, etc. We have only progressed in leaps and bounds as a product trader and supplier since inception in 2022, thanks to our reliable business partnerships and our multi-product sales strategy.

We, VIP Import, from New Delhi, India, can be called gamechangers in our domain. Instead of being a company dealing in 2-3 categories of products, we bring forth multiple products under several important product categories. Our business networking is commendable, which is evident from our broad base of certified vendors in the Indian market whom we associate with for purchasing products like Kitchen Equipment, Salon Equipment, Hair Straighteners, Hair Dryers, Water Jet Cannons, Foot Pumps, etc. Our business agenda is simple- to help clients get access to the best designed products that can be relied on for their ease of use and durability. We also offer products at economical prices, standing as a shining example of how a trading business can deliver some of the greatest deals to product buyers.
