About Us

Manufacturing of products is a hassle for companies, which do not have the right manufacturing equipment. Having the right equipment for manufacturing high quality products is the reason for Adarsh Lighting, a Delhi based company with a long-standing and high status in the industry. Our company was founded in the year 2011 by Mr. Raman Kumar, holding an excellent reputation among long-standing and new companies because we are abiding by all laws pertaining to manufacturing supreme quality products and ensuring strict quality control.

Adarsh Lighting has been in operation since eleven years to serve Indian clients with matchless in quality and impressive in functionality LED Surface Panel Light, ACDC Housing, Lithium ION Battery Cell, Emergency LED Bulb DOB PCB, Electronic Choke, etc. Every item is fabricated with components that are premium quality. The design of every product is made under expert guidance. Having a skilled team to perform every task, we are meeting all requirements of customers. From manufacturing to delivery, every task is performed with perfection to increase customers satisfaction. In Delhi, India, we have a large production space to manufacture a wide variety of electrical and electronic items.
