

Distribution Transformer

Together we work to full-fill
your needs.

100 kVA 3-Phase Oil Cooled Distribution Transformer, 1000kVA 3-Phase Oil Cooled Distribution Transformer, 100kVA 3-Phase Oil Cooled Distribution Transformer, 15 KG Solar Mounting Structure, 1600 kVA 3-Phase Oil Cooled Distribution Transformer, 2 MM C Z Purlins, 2 MVA Solar IDT Transformer, etc.

About Us

Nakoda Products is a shining example of reliability among power distribution and structural support solutions. As a manufacturer, supplier, and exporter, the company caters to a wide range of industries with high-performance transformers and solar and construction structures that are precision-engineered. Each product bears the guarantee of engineering perfection, engineered for enduring performance under extreme conditions.

With a diverse portfolio of offerings like 3-phase oil-cooled distribution transformer, oil-cooled power transformer, bis approved distribution transformer, substation electrical power transformer, copper wound transformer, c z purlins, galvanized iron c purlin, high voltage transformer, electrical power transformer, solar pump structure, and solar mounting structure, our offerings bring innovation, efficiency, and strength to each use. Whether converting electrical energy for optimal distribution or facilitating solar projects with corrosion-resistant, UV-proof buildings, the solutions provided are designed to minimize operational costs and enhance energy efficiency. Efficient cooling systems, high-quality insulation, and thermal regulation features provide stable operation under diverse load conditions and harsh environments.
