## About Us

Start a trip to a tidy, green and energy-saving India with Celletron Motors Private Limited, which creates modern and reliable rickshaws. Volo Industries Pvt. Ltd is our parent company. This company is well-known for turning waste into useful stuff by using less materials and reusing and recycling various items. They became famous for leading the way in making cities grow while being friendly to our planet.

Celletron Motors is more than just a company that sells electric vehicles. Apart from being a manufacturer of MS E Rickshaw Loader, E Rickshaw Garbage Van, Passenger E Rickshaw, E Rickshaw Fitting Kit, etc., we are creating new chances for people to boss themselves in the whole country and give everyone an honest way of earning money without making contribution to the rising pollution. Our promise matches perfectly with the dream of the Indian Government to make India's travel system completely green by 2030.
