N. B. Associates buys wide variety of light pole products from different businesses across the nation. We refer our sales representatives as our marketing experts because they work from the neutral stance and make proposals to the light pole product manufacturing companies and ensure to develop strong bonds with them for long term. Apart from this, they persistently work to sell our range of **Stadium Mast Lighting Pole, High Mast Lighting Pole, Motorized Stadium Mast Lighting Pole, Lighting Pole and Octagonal Pole** at fair prices to our customers. The thing that makes us stand out as a trader and supplier in this business line is our strict adherence to ethical business practices. We believe in the fact that no one wants to associate with a company that runs its business unethically. Therefore, perform all our business activities on the grounds of morality.

Why Choose Us?

Since 2018, we have been catering to the requirements of residential, industrial as well as commercial sectors by offering quality assured GI Street Lighting Pole, GI High Mast Lighting Pole, Conical Street Lighting Pole and other products. For high performance, superb quality and rust proof finishing, our products are admired in the market. The entire range is acquired from reliable producers keeping in mind their brand image and financial position. Besides this, we perform all our business activities on the grounds of morality. Apart from this, following are some more reasons that attract our customers towards us-

- **Professionalism:** Regardless of any situation, we work in a systematic manner to ensure timely completion of our projects. And, it is our way of working that is the evidence of our professionalism.
- **Mutual respect:** Be they our clients, employees or stakeholders, we treat everyone with mutual respect.
- **Vendors:** Our vendors are everything to us. We consider our vendors as the backbone of our company as they help us have access to their quality approved range of GI Octagonal Pole, Cast Iron Lighting Pole etc.

Warehousing Facility

But, we are different and with the support of our diligent warehousing personnel; we well-manage our warehousing operations. We ensure that the products like High Mast Lighting Pole, Conical Street Lighting Pole, Cast Iron Lighting Pole etc., that we have sourced from our vendors are carefully and safely stored in our warehouse. For this reason; we have also outfitted our warehouse with material handling equipment.

We are engaged in the trading and supplying of range of well-designed High Mast Poles. These metallic poles are used for carrying the logos and national flags firmly to a certain distance from the bottom. These are installed at hugely public cites, in order to make everyone feel the impact of the national flag or the logos attached to these High Mast Poles. Along with following the easy installation processes these poles are easy to maintain as well. Some of these poles do require the voltage in between the range of 220 to 240 volts in order to function prominently.

9 mtr to 40 mtr.

Name of this category itself reveals a lot about the kind **Stadium High Mast Poles 12 mtr to 73 mtr** it offers, be it varies from the usual lighting poles to the motorized ones. These high structures are available with the fixed head frames which are used for mounting the lights over, which enable one to see everything clearly in several stadiums or playgrounds where certain number of games are played. We do offer these Stadium High Mast Poles in different specifications as per the requirements of our prime customers. One does not have to a larger chunk of his or her pocket in order to avail these high poles.
