About Us

We clearly want to be a market leader in terms of volumes of imports and exports. By the end of year 2023, we want to capture major domestic and global market especially in the **Middle East, South Africa regions**, and European Country. Our ambitious targets help us drive our passion and achieve our dreams.

We look forward to working with new comer's businessman and discussing with their Idea's and product's potential in domestic and international markets.

We break with the concept of the conventional manufacturer. While treating the raw materials business as the core of our enterprise, we define ourselves as a company in the service sector, acting as an agent for business-to-business transactions. By defining the business we have done so far as agency services, we are better able to respond to our clients' varying needs relating to products.

MKD International Import And Export is supplying a gamut of seeds, fruits, spices, etc., to valuable patrons across the world. Our business serving as a **trader, importer, exporter** and wholesaler is pursuing quality-confirmed methodologies in order to attain a strong position in the worldwide market. Our sourcing chain maintains production line in conformity with the strictest quality norms defined by the industry. We procure spices, fruits, vegetables and so on in a huge amount in order to remain ready for meeting sudden as well as bulk orders of customers around the globe. Our trader and wholesaler based entity checks this procured gamut on taste, color, texture, safety and varied other mandatory parameters. At our company, we meet growing demands related to **Natural Tomato, Natural Muskmelon Seeds, Green Cardamom, etc.**

Our entity pays great amount of concentration on the packaging of our sourced assortment. We use packaging materials that are approved by the industry specialist packaging experts. The utilized packaging materials keeps all forms of impurities as well as unnecessary elements away from the sourced gamut. Before and after packaging, product testing is performed in order to leave zero scope for any shortcoming. Our company approves supplying singularly those fruits, spices and others that align with the right standards of quality.
