SOLAR E- RICKSHAW BATTERY

SOLAR HOME BATTERY

LUMINOUS SOLAR CHARGE CONTROLLER

About Us

Using solar products are helpful not only in saving the electricity bill but contributes to conserving various renewal resources. The technology has made it possible to convert sun light into electrical energy and such products are also in demand because of multiple benefits. Our company named Shree Shyam Solar is a supplier and wholesaler of such items which includes Solar Street Light, Portable Solar Water Heater, SS Solar Water Heater, Solar Panel, Solar UPS, Solar Water Pump, etc. The manufacturing companies from where we procure our range are certified but when it comes to quality and performance of products, we conduct in-house quality checking process.

We have expert professionals who are highly educated and well aware of the technology used in the manufacturing of such items. Our professionals are capable of identifying whether the range is worth supplying in the market or not and until we get an approval from them, we do not allow any product to be dispatched from our premises. The buyers across the globe must switch to solar products because by doing so they will contribute in saving mother earth by saving non-renewable sources of energy.

Key Facts

| | |
|---------------------------------------|--------------------------------------|
| Nature of Business | Distributor |
| Primary Competitive Advantages | monocrystalline silicon solar panel, |
| No of Staff | 9 |
| Year of Establishment | 2019 |
| OEM Service Provided | No |
| Monthly Production Capacity | depends on order |
