

# Kyra Pink Vitreous Limestone

PREMIUM ARCHITECTURAL STONE PORTFOLIO

## MATERIAL DESCRIPTION

Kyra Pink Vitreous Limestone is an exquisite natural stone selection highlighted by its delicate rose-tinted variations, beautifully complemented by natural copper veins, warm ochre tones, and earthy grey blending patterns. Boasting a high-density, vitreous sedimentary structure, this limestone variety offers superior durability, uniform resistance against frost cycles, and exceptionally low water absorption. Ideal for elegant interior premium flooring, modern architectural patios, statement courtyards, and vertical accent cladding layouts.

## TECHNICAL SPECIFICATIONS MATRIX

Parameter Category	Technical Specification Value
Stone Nomenclature	Kyra Pink Vitreous Limestone
Color Profiles	Soft Rose Pink, Warm Tan, and Mottled Earthy Grey accents
Surface Finish Options	Calibrated Matte, Natural Split, Honed, or Antique Brushed

Parameter Category	Technical Specification Value
<b>Structural Density</b>	High compressive matrix with low water absorption
<b>Slip Resistance Profile</b>	Excellent natural friction rating, suitable for exterior spaces
<b>Recommended Application</b>	Luxury residential flooring, external patio design, landscape paving, and luxury pool decks
