About Us

We, Join Pack Machines (Pvt.) Ltd., are manufacturer and supplier of an array of packing machines. Incepted in the year 1997, we have been providing a wide range of packing solutions, packaging machines and packing materials at most competitive rates.

As one of the reliable Carton Packaging Machine, Carton Sealing Machine Supplier in the industry, the machines and materials purchased are checked in-house by our expert quality analysts. They check them thoroughly on various parameters and only the best out of the lot is then dispatched for sale into the market. International quality parameters are strictly adhered to always. Apart from providing the above mentioned products, we also provide Preventive & Breakdown Services for our machines. We also make available spares of almost every brand of strapping and taping machines.

Our expertise comes from the diversity of people associated with us, helping the company grow and extend the markets to different countries. We are supported by a number of technologically competent and experienced engineers, R&D associates. Besides that our team comprises highly experienced and talented quality analysts, marketing officers, and other professionals. They ensure delivery of quality products to a large number of clients situated in all corners of the globe. Our team members have reinforced the capacity and enhanced the ability of the company to develop total integrated packing solutions.
