### Shrink Wrapping Machines

**Item No. - [SM 23]  
JPM Shrink Machine**

#### Description:

we present ultra modern **semi automatic shrink machine** with easy pc board replacement and high speed transmission. It is offered with adjustable package guides and low voltage control circuit for operator safety. We are able to emerge in this packaging industry as a reputed manufacturer and supplier of a **Shrink Wrapping Machine**. The machine is mainly used in packaging unit of beverage industries. These are extensively used for packing bottles and cans, drinking water, fruit juice and dairy products. Our machine is capable of transferring, membrane packing, sealing and cooling functions automatically. Installed with PLC automatic program control system, the **Shrink Wrapping Machine** provides stable and reliable performance.

#### Some of the salient features of Shrink Wrapping Machines:

- Automatic sealing/shrink packaging
- Stable operations with high speed
- Excellent efficiency
- Sophisticated operating interface
- Excellent transmission structure

## Shrink-Wrapping-Machine

### Item Code : STWP 17 Shrink Tunnel Wrapping Machine

Supported by our experienced professionals, we offer superior quality **Shrink Tunnel Wrapping Machine**. These machines are used for packing and wrapping various factory commodities. We manufacture these machines in our huge infrastructure facility by making use of advanced tools and machines. High-grade components are brought from the reliable vendors to manufacture these machines. The **Shrink Tunnel Wrapping Machine** is widely demanded by our clients for their excellent performance and durability.

#### Features:

- Silicon covered rollers.
- Heavy-duty chain system.
- Adjustable leveling screws
- Cooling Provision after use.
- Digital temperature controller.
- High blow with special impeller.
- Digital variable speed conveyor.
- Sturdy and heavy gauge design.
- Number of rods can be adjusted.
- Built-in electrical protection system.
- Separate control panel box for protection.
- Various models to tailor suite your requirement.

**Packaging & Delivery:** Wooden case

**Delivery Detail:** 15 to 30 working days after received down payment
