

Floor Model Gelato Ice Cream Machines

Product Overview

Elevate your dessert offerings with our Majestic Floor Model Gelato Ice Cream Machines, designed for prodigious performance and lavish output. Crafted in durable SS304 stainless steel and finished in stainless steel color, these machines offer a batch capacity of 25L. Semi-automatic controls, rotary switches, and single-flavor output make them ideal for professional gelato production.

Material Features & Application

Industrial-grade SS304 stainless steel ensures durability and hygiene. Easy-clean front panel and wheels simplify maintenance and movement. Suitable for professional kitchens and gelaterias.

Certifications, Samples & Market

Certified quality, secure packing & dispatch, sample availability on request, and support across India.
