## About Us

Shayona Biotech Private Limited is a reliable manufacturer, supplier, and producer of Purple Mango Plant, Langaro Mango Plant, Alphonso Mango Grafted Plant, White Mulberry Plants, Tissue Culture Pomegranate Plant, and more. These plants are cultivated using tissue culture techniques, ensuring disease-free growth, robust root systems, dense branching, and high survival rates. Our state-of-the-art nursery is equipped with modern machinery to facilitate this process, overseen by experienced professionals. Committed to client satisfaction, we strive to provide top-quality plants to enhance productivity and market presence.

To support the growth of our plantlets, we have established a sophisticated nursery managed by our skilled experts. Our facility is equipped with state-of-the-art equipment, enabling us to produce a high-quality range of plantlets in large quantities. We conduct tissue culture procedures in a nursery environment that prioritizes maintaining sterility. Through this process, we cultivate live tissue from the mother plant using appropriate nutrient media in vitro, ensuring contamination-free conditions. Our use of advanced laboratory techniques and specialized equipment allows us to create a space for working with sterile plant tissues.

Key Facts

No of Staff	45
Year of Establishment	1999
OEM Service Provided	No
