About Us

For enjoying a smooth and stabilized ride, it is important to have good shock absorbers in the vehicle. Therefore, manufacturers of four wheelers vehicles install shock absorbers for each of the tyres to ensure stabilized movement. Considering the importance of shock absorbers in automobiles, we, **Mana Shock-Absorbers** stepped in this domain as a **manufacturer** and **trader** and began engineering shock absorbers for almost every car including **Alto, Mahindra Maximo, Eeco, Innova, Swift and Verna**. The gamut of shock absorbers we offer are highly demanded in the market due to their ability to minimize tyre wear, stabilize vehicle tyre, limit vehicle body movement, etc. With our **Automotive Shock Absorbers, Alto Car Shock Absorbers, Mahindra Maximo Shock Absorber, Verna Shock Absorber, Innova Shock Absorber**, we have been assuring safe ride to the drivers and all the people enjoying that ride. It was in the year 2000, when our company was founded and since then we have been striving day and night to fulfill the demands of our customers, both in terms of quality and quantity.

What Makes Us Special

We, at our company, believe in the fact that no company is established with an already existing customer base. One has to put in special efforts to be special. And, when it comes to amazing customers with products and services, Mana Shock-Absorbers stands behind none. Following are the reasons because of which we have become special in the eyes of our customers:

- ✿ We always work hard to maintain a level of transparency in our business deals to ensure our customers can trust us without giving any second thoughts about us.
- ✿ We have all the resources for carrying out our business operations; therefore, we make sure to use them optimally to reduce the waste generation.
- ✿ We are backed by a team of 15 dexterous employees with whose help we complete our projects on time.

Infrastructural Facility

We have our base sprawling over a large piece of land established at the prime location of Faridabad, Haryana. Segregated into different units, each unit of the facility is equipped with technologically advanced machinery and other tools for engineering Automotive Shock Absorber, Innova Shock Absorber, etc., of unparalleled quality.
