FLEXIWIN PERMIUM DECORATIVE SHEET

Designed Beyond the Surface.

Because true elevation comes from precision, not decoration.

Designed Beyond the Surface.

Flexiwin stands on the belief that performance must be Designed Beyond the Surface. Our premium decorative sheets are engineered not just for appearance, but for the extreme conditions that destroy ordinary materials. Beneath every finish lies durability against UV exposure, heat, impact, and weathering—ensuring structural and aesthetic integrity for years. Flexiwin creates surfaces with intelligence, resilience, and purpose: sheets built to endure, not merely decorate.

FLEXIWIN[™]
PREMIUM DECORATIVE SHEET

Minimal yet impactful, plain laminates enhance interiors with uniform shades, flawless surfaces, and a polished aesthetic that defines contemporary luxury living.

REFINED

MINIMAL
living

Minimal neutral tones define calm spaces with lasting sophistication

Elegant plain laminates provide a refined backdrop, allowing furniture, lighting, and spatial design elements to stand out beautifully.

MINIMAL

RHYTHM
design

Understated tonal layers creating calm, structured, and modern surface character

Designed for modern spaces, plain color laminates offer balanced tones, refined surfaces, and enduring elegance across interior applications.

SUBTLE

ELEGANT
forms

Optimal Adhesive for PREMIUM DECORATIVE SHEETS

Antifinger, anti-scratch, soft touch and more environmentally friendly

- Using excimer technology, the surface has improved repair performance and is super scratch-resistant compared to similar Flexiwin products on the market. Extremely delicate.
- Flexiwin material is composed of a multi-layer structure and has stable performance.
- Complies with EU REACH regulations and food-grade environmental protection requirements.
- It does not contain plasticizers, formaldehyde, heavy metals or other harmful substances, and is truly non-toxic and odourless.
- Weather resistance gray card level 4 or above; specific colors can remain weather-resistant for up to 5 years without discolouration.
- The hardness is up to 1H and has good scratch resistance.
- The stain-resistance level can reach level 5 with no obvious change.
- The matte surface feels as smooth as skin, and minor scratches can be repaired with heat.
- Compared with PVC, Flexiwin is more environmentally friendly and has stronger surface anti-fouling and scratch resistance. It is an ideal decorative material for door and integrated wall cabinet panels.
