## About Us

Founded by the late Mr. Rakesh Kumar Tandon, R. K. Essential Oils Company has become a prime manufacturer, supplier, exporter, and wholesaler of high-quality Co2 extracted oil, Indian attars, Arabian attar, fragrance oil, flavor oil, etc. We operate with a production culture of quality and value throughout the entire supply chain at R. K. Essential Oils Company.

Over the years, our operations spread to encompass many more essential oils. We established units in Assam to manufacture Aquilaria Agallocha, also referred to as Agarwood or Ouda much-desired commodity. Our commitment saw us distilling other essential oils like lemongrass, patchouli, and citronella from Java. We further diversified our production in Kannauj, our hometown, which includes oils like clove, marigold, and basil besides our renowned attars, all of which have received positive acclaim from clients worldwide.
