About Us

Gooden Tradex India Private Limited is a reputable company well-known for providing high-quality horizontal direction drilling machines and rubber tracks. The company is respected as a supplier, trader, and service partner because it challenges the concept of innovation and provides technology-led solutions with reliability in each engagement. Gooden Tradex India Private Limited is dedicated to providing high-caliber machinery that is reliable and efficient in challenging working conditions. Each product exemplifies hardiness, efficiency, and precision for both clients and operators. Incorporating advanced technology enables high-quality drilling possibilities with minimal impact on the environment. Each machine's rugged design ensures that durability and low maintenance service are qualities you can expect. The horizontal direction drilling machines' design increases their capability to thrive in difficult terrain and reduces downtime while ensuring fuel consumption is optimized as well. The rubber tracks are designed to afford maximum maneuverability, mobility, and load-bearing capacity in uneven and tight working areas.

Gooden Tradex India Private Limited innovates to continue to develop extraordinary performance enhancements and functionality at a time when industries are demanding heavy-duty, lifetime-performance, reliable boring solutions. The commitment to services extends well beyond the machinery itself; it includes end-to-end support and long-term value for the purpose of empowering the clients operational excellence.
