About Us

We at **SPL Packaging (India)** have attained an outstanding growth rate in Indian markets by working under the mentorship of visionary **Mr. Jatin Kansal**. His experience and business acumen in the field of packaging products is one of the core strengths of our company that is pushing us forward to the forefronts of marketplace. We are associated with Embrace Multi Products Pvt. Ltd. company as a sister concern. As a **manufacturer** and **trader**, we are responsibly fulfilling the increasing demands for packaging products of companies as well as individuals from diverse sectors. Our offerings for them range from **Corrugated Packaging Rolls, Printed Medicine Packaging Boxes, Round Pharma PET Bottles, Brown Corrugated Boxes, Shoes Packaging Boxes** to more items. Based on the standard requirements of all the respective sectors, we provide them suitable and safe packaging products of various sizes, shapes & other attributes at reasonable prices. Our ultimate target always remains to achieve the satisfaction of our customers in order to forge everlasting relations with them.

Ultramodern Facilities

Our modern and well equipped infrastructure is established in **Sonipat (Haryana)**. The entire premises is facilitated with latest equipment and tools that are necessary for non-stop designing, development and supply of top grade packaging products. For running all the production procedures for aforementioned packaging products in a standard manner, we have organized the entire premises in a systematic method. This system enables us to handle multiple processes for development, testing, assurance, packaging and more efficiently & effectively.

Quality Maintenance

The excellent quality of our products including Shoes Packaging Boxes, Brown Corrugated Boxes, Corrugated Packaging Rolls, Round Pharma PET Bottles, Printed Medicine Packaging Boxes, etc., is the result of our well operating quality management tasks. In our quality maintenance system, we have adhered all the latest international quality norms and policies. It enables us to maintain the highest standards that are set in the industry with utmost safety, material control and environmental concerns.
