

# BARBED WIRE

- Barbed wire, also known as barb wire (and frequently in dialect form spelled bob or bobbed), is a type of fencing wire constructed with sharp edges or points arranged at intervals along the strand(s). It is used to construct inexpensive fences and is used atop walls surrounding secured property. It is also a major feature of the fortifications in trench warfare (as a wire obstacle).

## Features

- Use of high quality metal
- Dimensionally accurate
- Anti abrasive
- Non corrosive
- Resistant to weather conditions

## Sizes & Specification

- Available in 2.00 mm to 2.00 mm of Gi Wire 40 to 270 GSM ZINC COATING.
- Made from prime QUALITY HOT DIP GALVANIZED WIRE as per IS Specifications

Wire Gauge	Size in MM	Length per KG	Bard Distance	Bard length
12G X 12G	2.50MM X 2.50MM	6 Mtrs.	75MM / 100MM / 125MM (3" / 4" / 5") as per IS	40MM - 50MM (1.5" -2") as per IS
