About Us

Chandra Engineers was founded with a vision to provide **specialized expertise in the service, repair, and maintenance of commercial kitchen and laundry equipment**. In the early 1990s, **Mr. Phool Chandra**, a pioneer in technical aspects of this industry, noticed a critical gap—while companies supplied equipment, few had the in-depth technical knowledge required for after-sales support, maintenance, and complex repairs, especially for imported machines.

To bridge this gap, he started **Chandra Engineers & Contractors**. After years of working on large-scale projects and training engineers, he formally established **Chandra Engineers in 2000**. In just a few years, the company gained recognition as **a leading service provider** in the industry.

With over **30 years of experience**, an extensive client portfolio, and **a team of 65+ skilled engineers**, we are well-positioned to offer **end-to-end solutions** for your **commercial kitchen, Commercial laundry and Hospitality** sector needs. Whether you require **new equipment, spare parts, service, repairs, or maintenance**, Chandra Engineers is your trusted partner for reliable and efficient support.

- ✓ Capability to tackle jobs that others can't handle
- ✓ Service support for all brands, Indian and imported

Preventive Maintenance (AMC & CAMC)

Benefits of Preventive Maintenance (AMC & CAMC)

Reduced Equipment Downtime
Regular servicing helps catch issues early, preventing unexpected breakdowns.

Improved Efficiency
Well-maintained equipment runs efficiently, saving energy and water.

Cost Savings on Repairs
CAMC covers parts & labor, AMC covers labor—minimizing unexpected repair costs

Priority Support
AMC/CAMC clients receive faster response times and dedicated support from trained professionals.

Extended Equipment Life
Timely maintenance ensures optimal performance and longevity of machinery.

Expert Technicians
Our team of 60+ skilled engineers delivers dependable service with deep technical expertise.

We offer Non-Comprehensive and Comprehensive Annual Maintenance Contracts (AMC/CAMC) FOR Commercial Kitchen and Laundry Equipment backed by 60+ trained engineers, ensuring regular servicing and minimal breakdowns.

Other Repair & Maintenance Expert Services

On-Call Repair & Service

Beyond AMC, we provide on-demand repair services, responding quickly to urgent service needs.

Equipment Overhauling

We restore equipment to its optimal performance by repairing and replacing faulty components with OEM parts.

Remanufacturing of Equipment

When your machine is aging but structurally sound, we can remanufacture it using OEM components and offer a 6-month warranty—providing a cost-effective alternative to new equipment.

Conversion OF Equipment

If OEM parts are unavailable but the equipment is structurally sound, we can upgrade it using alternative control systems and compatible parts—restoring performance and reliability.
