About Us

We at N. Light Solar began our journey with aspirations of becoming the top notch source of Solar, LED and other electrical products solutions in the markets across India. The name of our company is enlisted amongst the leading manufacturers and service providers due to our flawless completion of deals and services. The latest technology of product range we are bringing includes Li-Ion/Po4 Batteries for Solar Application, EV Batteries, Solar High Mast Light, Solar Semi Integrated

Renewable Energy Products and more products. Customers who choose us, get their hands on products that are exemplary when their overall quality is compared to regular standard products. We are actively serving customers in Uttarakhand, U.P, J&K, Rajasthan and Haryana through our strategic marketing techniques. Moreover, we keep our backpack of tools ready to render the finest Solar Plant Installation Services fluently, punctually and professionally.

Our Strengths

Neither strength means that body is strong, nor it means that mind is capable of achieving things. Strength, as a whole is a broader aspect, that includes both: mind and body. So, if we state about our strengths, we accredit the team of personnel, because minds of these individuals have made us achieve this position. We speak no less of our infrastructure, that we consider as our body. Our personnel integrate themselves expertly, and ensure achieving whatever we seek for, effectively and efficiently. Some of the other things that strengthen us are mentioned below:-

- ☀ A widely sprawling distribution network
- ☀ Highly advanced machines and tools
- ☀ Undying determination to achieve goals

Choose Us

We, with confidence speak that, availing our products would be the best choice for your long term & sustainable solar solutions. The quality of our products including Solar High Mast Light, Solar Semi Integrated Street Light, Li-Ion/Po4 Batteries for Solar Application, EV Batteries, Solar Home Lighting System, All-In-One Street Light, Renewable Energy Products and more remains unmatched, and we ensure our clients, that they will have to pay fairly nominal to avail from us. We are considered a reliable company because we serve reliable products. Each one of our offerings is developed with an intention to impress customer. Not only the design of our products is exclusive, but also the way our personnel develop it, ensures flawlessness and sturdiness. We have worked hard to make our offerings worthy to be chosen. And we are determined to work even harder, to make this world our stronghold.
