About Us

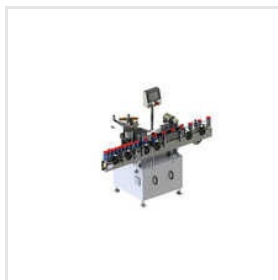

Interpack Technologies LLP, a company founded in 2018, is the top manufacturer and exporter of Automatic Combi Sticker Labelling Machine, Three Phase Sleeve Applicator Machine, Chain Conveyor, etc. Our company also offers after sales and maintenance service of our products. We make every attempt to give them world-class things that exceed their expectations and will make them happy. We do all of our business with the utmost morality and professionalism in order to maintain positive relationships with clients. Additionally, our premium clients can benefit from our labelling machine maintenance services. We owe Mr. Nitin Naik, whose unwavering support and direction have enabled us to achieve exponential development in the current industry, a debt of gratitude for our achievement.

Even our purchasing division takes considerable care to choose parts and materials that are appropriate for each machine. In order to meet our quality standards, we only choose certified vendors for the purchase of top quality raw material. We promise to give each and every one of our clients the best labelling tools available. In order to adhere to this goal, we use Standard Operating Procedures when creating each part of our machine. GMP standards and other certifications are occasionally achieved to ensure quality in all of our manufacturing processes.

One of the most well-known suppliers of labelling solutions for diverse industries is Interpack Technologies in Mumbai. For more than 5 years, our team of professionals has been designing and developing machines. We work very hard to update and enhance our goods and services so that we can offer our clients the most cutting-edge technologies. For renowned companies, our designers and engineers create cutting-edge branding solutions. Our equipment is made to perform to progressively greater requirements. Every part of our labelling machine is created for simple customer applications in the pharmaceutical and industrial fields.
