

APPLICATIONS & USES

Air Conditioning, Dairy Industries, Anodizing, Vanaspati Industries, Solvent Plant, Carbon Paper Machines, Chemical Industries, Pharmaceutical Industries, Food Processing, Plastic Industry (Blow Moulding, HDPE/PVC Pipes, PP Films, Multi Layers & Mono Layers Moulding, HDPE/PP Tape Plants, Thermoforming, PET), Rubber Industries, Malt Plant, Testing Lab, Bottling, Beverages, Construction, Foaming Industries and for many other Industrial uses.

WHY AIRTECH PRODUCTS?

Airtech Cooling Process assures about good quality & trouble free running all around the year. Due to single source responsibility covering designing, manufacturing, installation and service by our experienced Engineers and always standing by to attend post installation problems also.

OUR EXPORT

Bangladesh, Nepal, Sri Lanka, West Indies, Iran, Kenya, Algeria, Egypt, Ghana, Indonesia, Ivory Coast, Nigeria, South Africa, Sudan, U.A.E., Uganda, and many more...

Airtech®

THE NEXT GENERATION CHILLING SOLUTION

India's Largest Energy Efficient Chiller Manufacturer

ABOUT AIRTECH

Airtech is one of the premier engineering solutions provider and project specialist. Founded on 1990, Airtech Cooling Process Pvt. Ltd, offers engineering solution for a wide spectrum of industries in area as such as manufacturers, exporters and suppliers of Refrigeration & Air conditioning Systems. This includes Water Chillers (Air/Water cooled), Screw Chillers (Air/Water cooled), Skid mounted chillers, Green chillers, Ammonia chillers, Brine Chilling Plants, Ammonia / Freon based Refrigeration Plants, Cold Storages, Walk in Cold Rooms, Bulk-Milk-Coolers, Air cooling system etc.

WATER CHILLER

Airtech offer an extensive range of water chillers with high quality Compressors (Copeland/Danfoss/Carlyle/Bitzer Make), Air/Water cooled Condenser, Fully Automatic, Thermostatic Exp. Device, Automatic Temp. Controller. Water-cooled chillers incorporate the use of cooling towers which improve the chillers' thermodynamic efficiency.

Our product range starts from as small as 3 TR to as big as 300 TR and even much bigger capacities depending upon the requirement.

SCREW CHILLER

Airtech is engaged in offering it's clients a wide gamut of Screw Chiller that is best known for its quality. Airtech Screw Chillers are comprised with Automatic Capacity Control System, Air/Water cooled Condenser and Screw Compressors (Bitzer/J&E Hall/Hanbell Make). Moreover, these are available with various specifications and capacities as per the needs and it is available from 30 TR to above.

Our range of chillers are highly acknowledged by our clients because of its salient features that include high quality, best performance, high efficiency, reliability etc.

SKID MOUNTED CHILLER

Airtech is the manufacturer of Skid Mounted Chilling Plant of different capacity; it is available from 3 TR to above. The Chiller is controlled by a Panel mounted Operator Interface Control Panel. High efficiency compressor (Bitzer/Danfoss/Copeland/J&E Hall/Hanbell/ Carlyle Make) are used.

GREEN CHILLER

Doing business without harming the environment has become a goal of Airtech. Airtech is committed towards developing and manufacturing environmental friendly products.

The world's top brand compressors (Danfoss/Bitzer/Copeland Make) are used to meet various requirements and it is available from 3 TR to as per customer's requirement.

AMMONIA CHILLER

Airtech offer an extensive range of ammonia chilling plant from 20 TR to above with Compact design, Small ammonia charge, High speed compressor (J&E Hall/Bitzer/Kirloskar Make), Evaporator and Condenser, complete with control and monitoring system. Flooded system with ammonia provides an efficient thermal solution while offering ideal operating economics.

Our Ammonia chilling Plants having NON CFC AMMONIA GAS, low running cost and easy maintenance, low power consumption and more power saving .
