

# INDOINFY STEELCORP

redefining FABRICATION

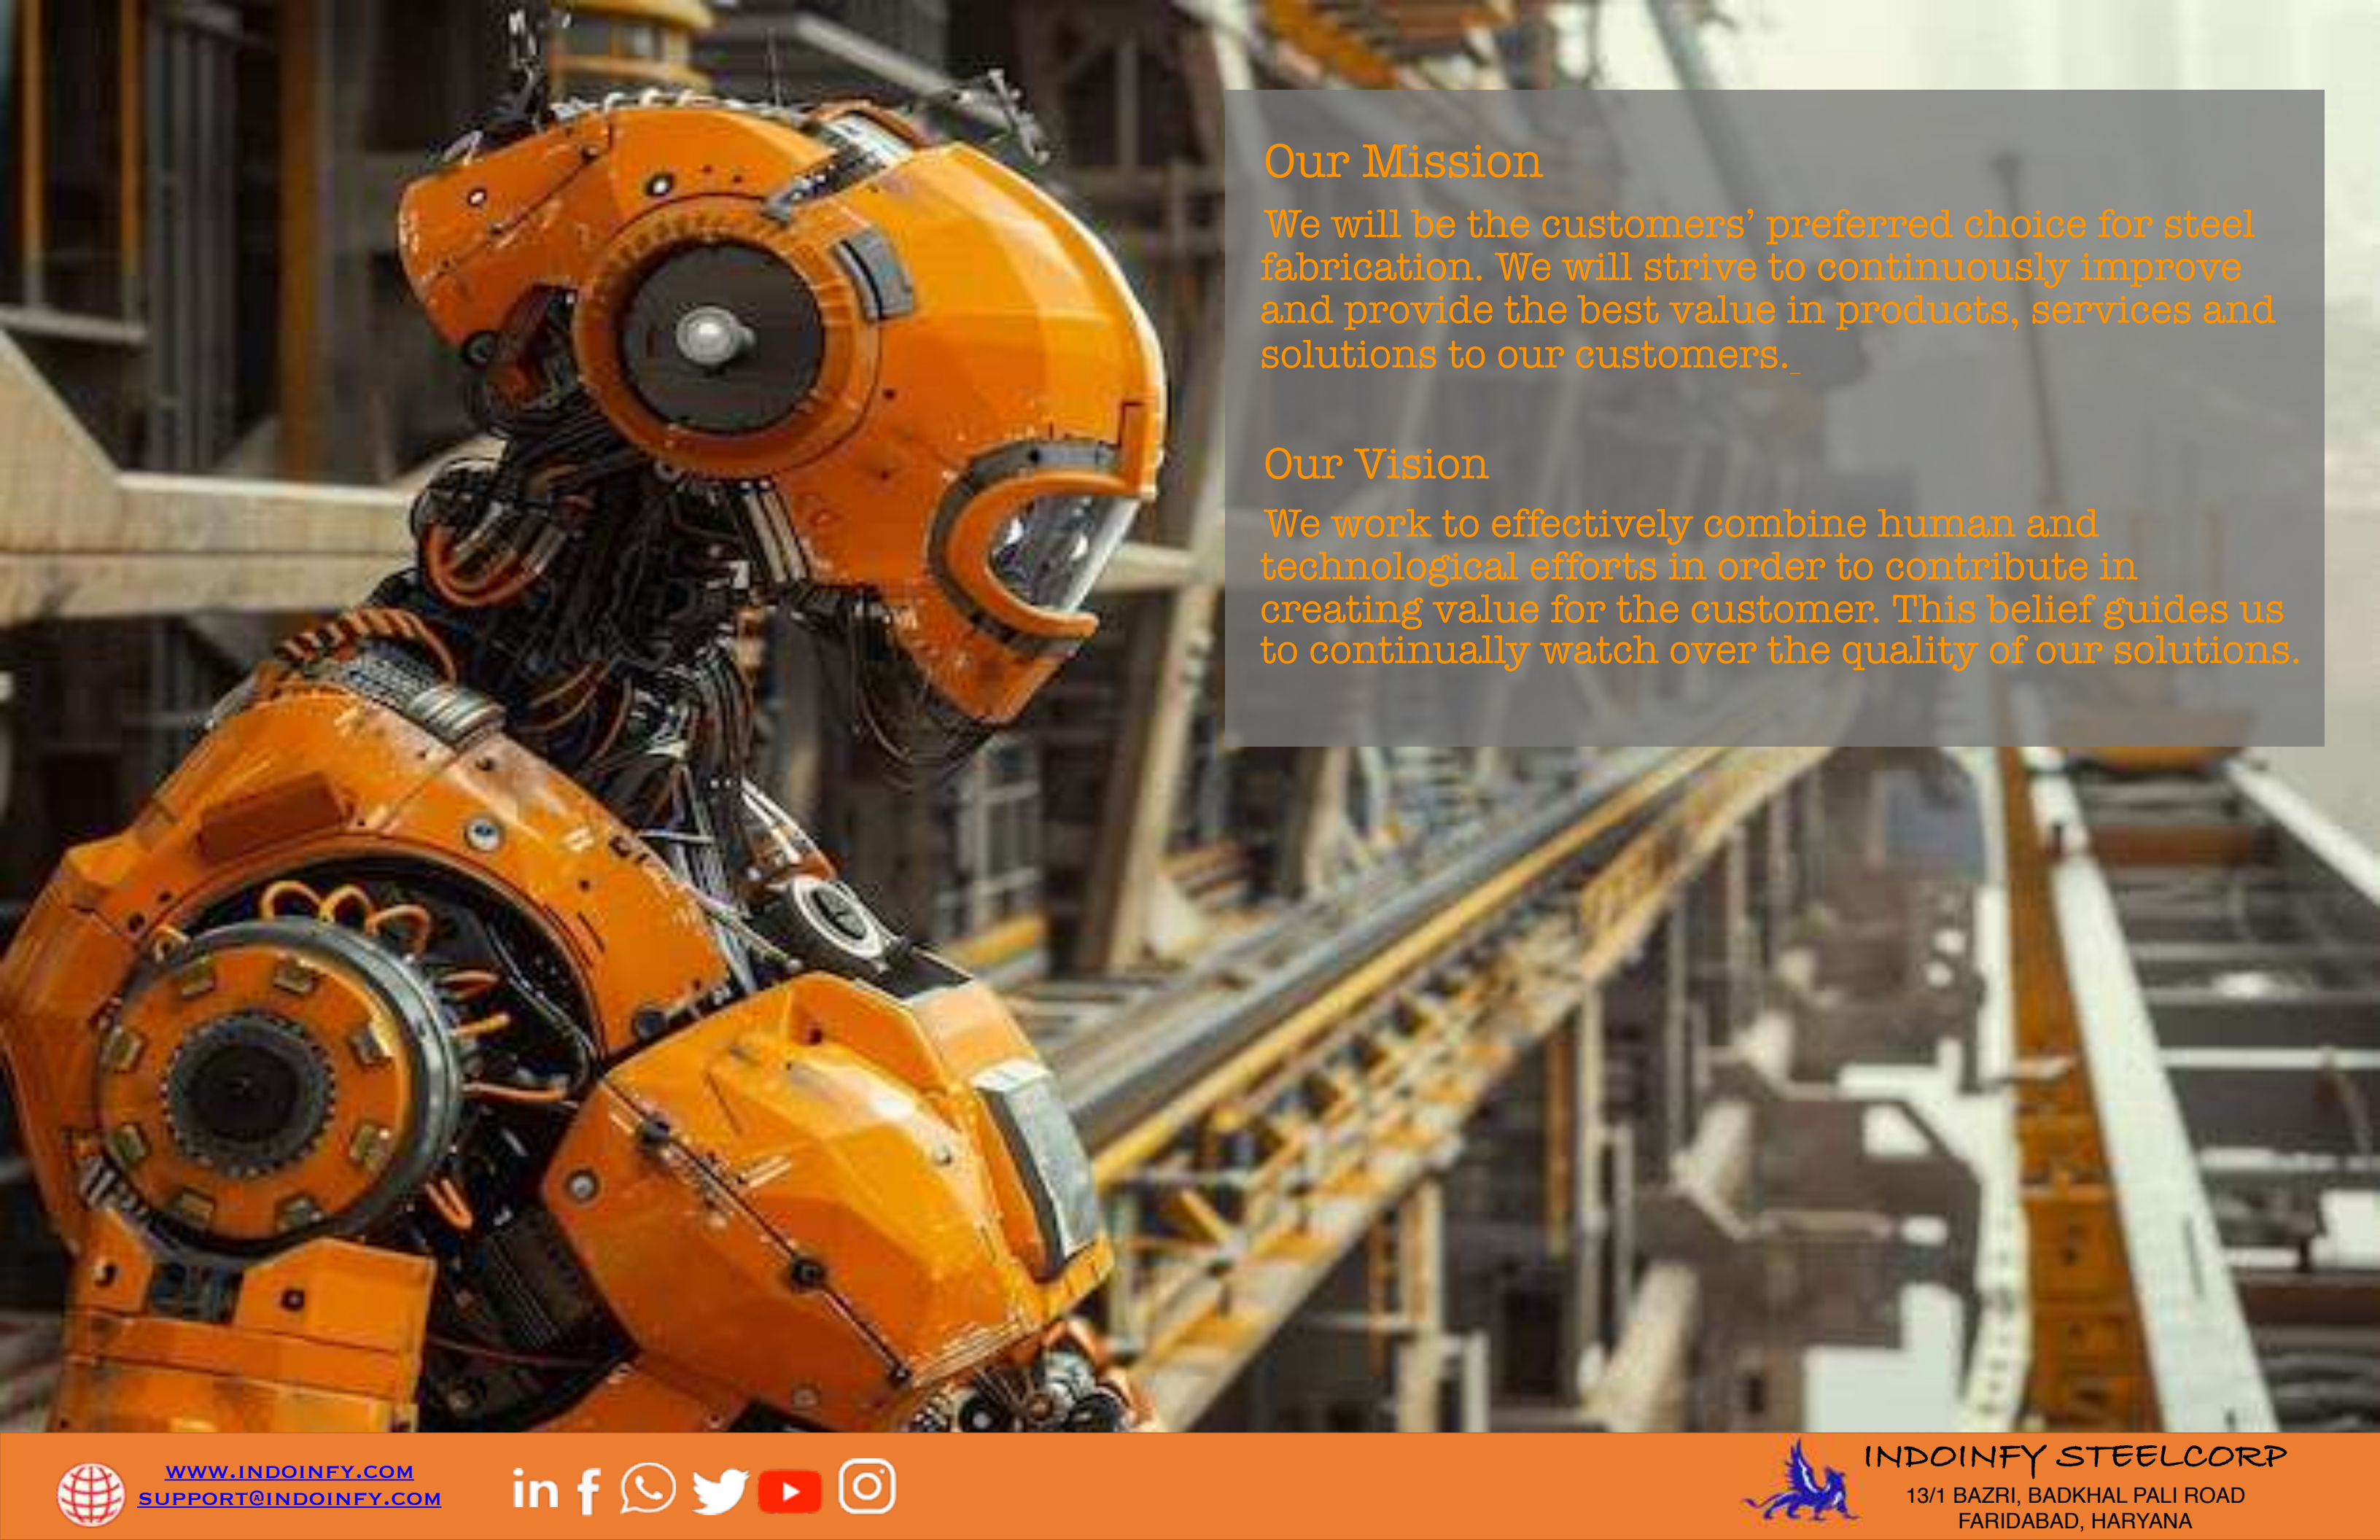

## Customised Plant Machinery & Equipment Manufacturer

Agitators, Reactors, Mixing Vessels, Pressure Vessels, Storage Tanks,  
Process Tanks, Heavy Fabrication & Other Engineering Activities

An ISO 9001:2015 Certified Company

## Our Mission

We will be the customers' preferred choice for steel fabrication. We will strive to continuously improve and provide the best value in products, services and solutions to our customers.

## Our Vision

We work to effectively combine human and technological efforts in order to contribute in creating value for the customer. This belief guides us to continually watch over the quality of our solutions.

**Elevate your capabilities and drive superior results**

**Collaborate | Craft | Deliver**

**Who we are:**

Established more than three decades ago, IndoInfy boasts of a rich heritage in the steel fabrication industry. With years of experience under our belt, we have honed our expertise, built relationships and emerged as a trusted name.

**Our Capabilities:**

- Custom Fabrication
- Heavy Fabrication
- Sheet Metal Fabrication
- Specialized Linings
- Paints, Coatings & Polishing

**Certification:**

IndoInfy is committed to quality and adherence to industry standards. We are an ISO 9001:2015 certified company and registered with Micro Small & Medium Enterprises (MSME) / Udyam Aadhar.

Our manufactured vessels conform to ASME Section VIII Div. 1 and API 650 codes, utilising the best of flanges and fittings conforming to ANSI 16.5, BS 10 Table E among others.

**Our Products & Solutions:**

- Agitators & Reactors
- Pressure Vessels
- Storage Tanks & Vessels
- Skid Mounted Systems
- Hoppers & Silos
- Air Receivers
- Supply Tankers
- Structures
- Custom Enclosures
- Material Handling Solutions
- General Engineering

**Our Valuable Clients:**

Utilize our heavy fabrication and project management expertise

Build | Better | Stronger

### Heavy Fabrication

For over three decades, IndoInfy has been a trusted provider of light, medium, and heavy fabrication services critical to your operation.

We recognize the significance of maintaining tight tolerances, meeting stringent quality requirements, and delivering reliably to ensure uninterrupted productivity for your business.

Every decision you make, from project engineering to selecting manufacturing partners, can significantly impact the success or failure of your equipment.

At IndoInfy, we fully comprehend the importance of these choices and the potential consequences they carry. Our comprehensive range of services, spanning machining, fabrication, assembly, and delivery, is designed to address these critical factors.

Utilize our heavy fabrication and project management expertise

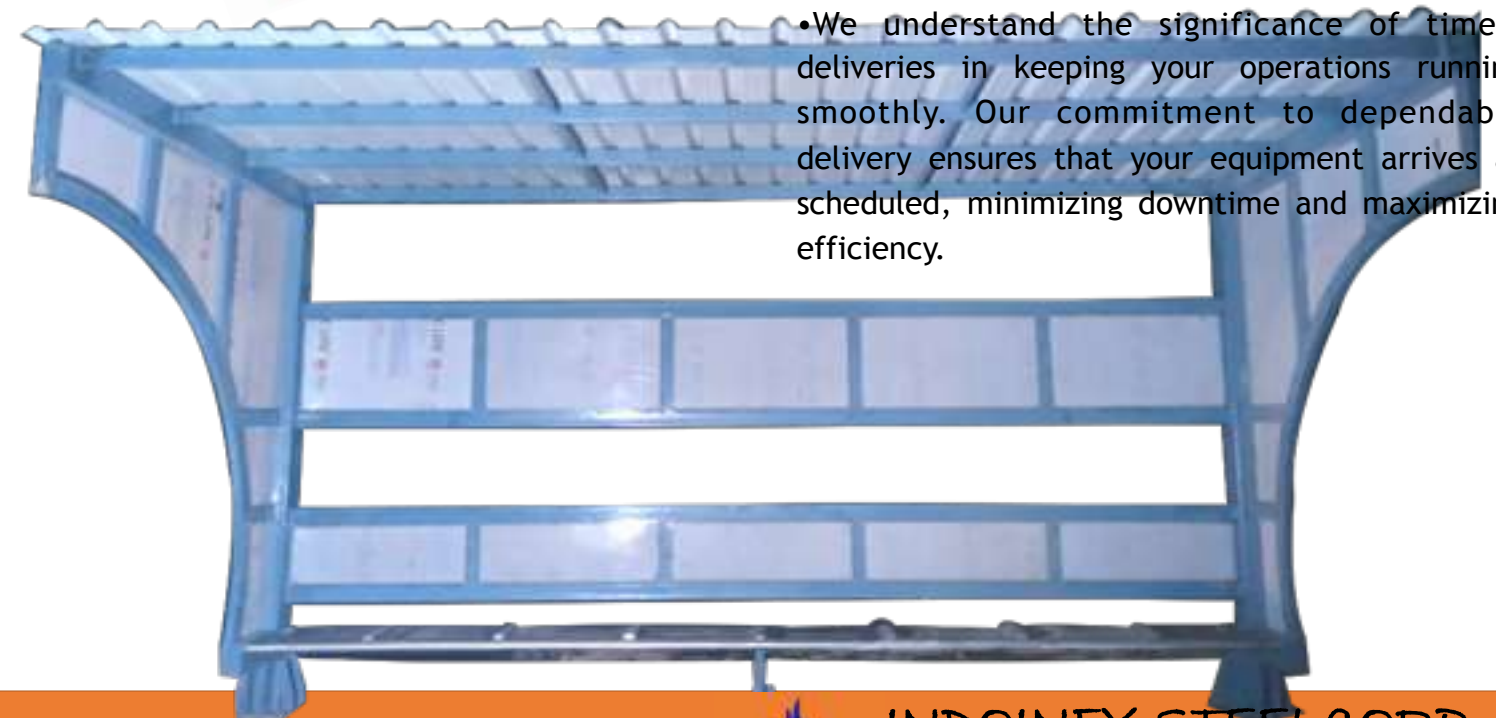

### Heavy Fabrication

At IndoInfy heavy fabrication stands out with its remarkable attributes:

- We have the capacity to handle projects with large-scale dimensions, providing the capabilities to fabricate equipment tailored to your specific requirements.
- Our heavy fabrication processes are focused on ensuring exceptional strength and structural integrity, guaranteeing that the equipment can withstand demanding operating conditions.
- By utilizing top-quality materials, advanced welding techniques, and rigorous quality control, we create products renowned for their durability and longevity.

- Our skilled professionals employ precision engineering and manufacturing practices, adhering to exacting standards to achieve the desired specifications and performance of the fabricated equipment.
- We understand the significance of timely deliveries in keeping your operations running smoothly. Our commitment to dependable delivery ensures that your equipment arrives as scheduled, minimizing downtime and maximizing efficiency.

**Customize | Transform | Results**

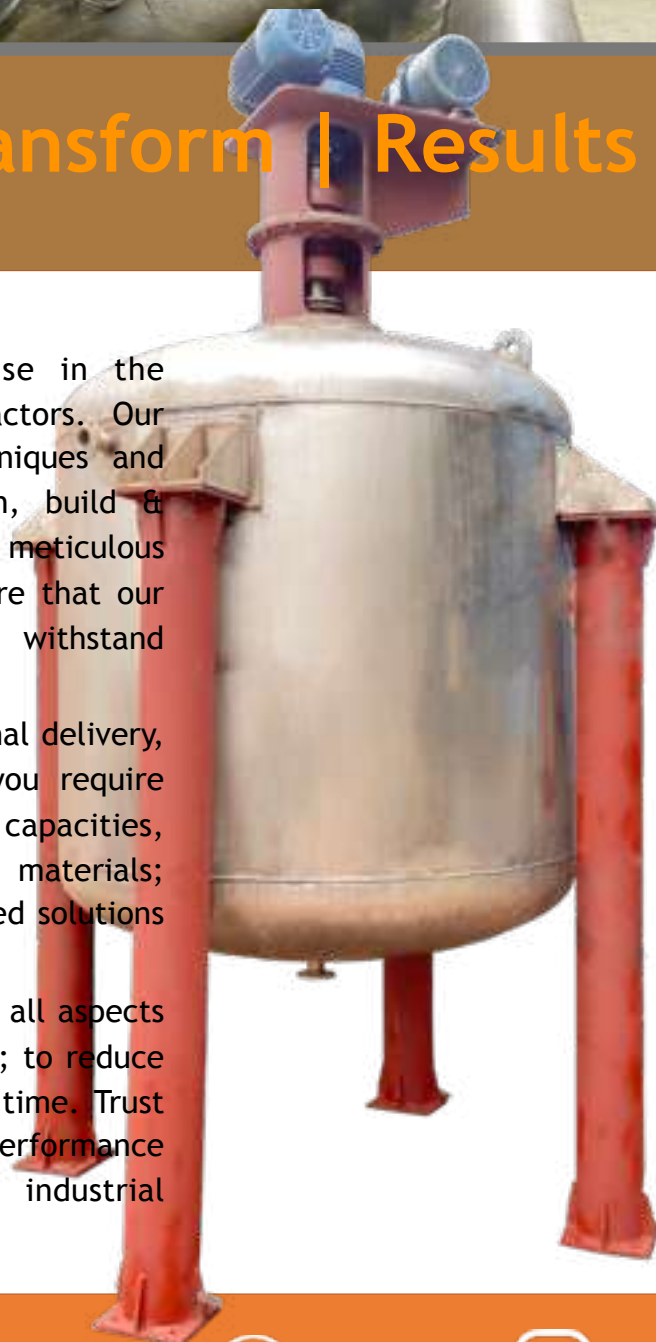

**Gain better leverage by enhanced mixing and lower operational cost**

**Agitators and Reactors:**

IndoInfy possess extensive expertise in the manufacturing of agitators and reactors. Our skilled team utilizes advanced techniques and state-of-the-art equipment to design, build & fabricate for various industries. With a meticulous approach to quality control, we ensure that our agitators and reactors are built to withstand rigorous operational demands.

From the initial consultation to the final delivery, we prioritize your needs. Whether you require custom designs, different sizes & capacities, precise specifications, or specialized materials; we are committed to delivering tailored solutions that meet your unique requirements.

IndoInfy specialists can assist you with all aspects for your efficient mixing requirements; to reduce energy consumption and lessen batch time. Trust us to provide you with reliable, high-performance equipment that will optimize your industrial processes.

Our expertise in designing & fabrication of Agitators & Reactors includes -

- Agitators: Propeller, Anchor, Paddle, Ribbon, Turbine and High Shear Impellers
- Bottom Entry Agitators
- Top Entry Agitators
- Reaction Vessels
- Jacketed Reactors
- Limpid Coil Reactors
- Homogenisers
- Autoclaves

Unlock new possibilities with independent or collaborative design

Innovation | Expertise | Satisfaction

**Pressure Vessels:**

Indoinfy specialists can assist you with all aspects of your pressure vessels project including independent or collaborative design services topped with our best-in-class fabrication.

Our experienced welders and inspectors implement internal and customer-required check points to ensure we are meeting or exceeding all codes. We also work closely with your appointed inspectors or third-party inspectors as required by your project. Our fabricated vessels conform to the strict B&PV Section VIII Div. 1, API 650 or can custom fabricate to your specific project requirements.

We use prime grade materials of IS: 2062, SA516 Gr.70, SS304, SS304L, SS316 & SS316L and can custom-built in a wide range of sizes, capacities, and pressure ratings. Our capabilities extend to handling projects with upto 25mm plate thicknesses.

You can depend upon our specialists for their commitment to ensuring total customer satisfaction.

Our expertise in pressure vessel design and fabrication includes -

- Process Vessels
- Mixing Vessels
- Jacketed Vessels
- Vacuum Vessels
- Filtration Vessels
- OEM Vessels
- Reaction Vessels
- Separation Vessels
- Custom Removable Heads Vessels
- Concentric and Eccentric Conical Designs

Unleash a range of possibilities in your custom build

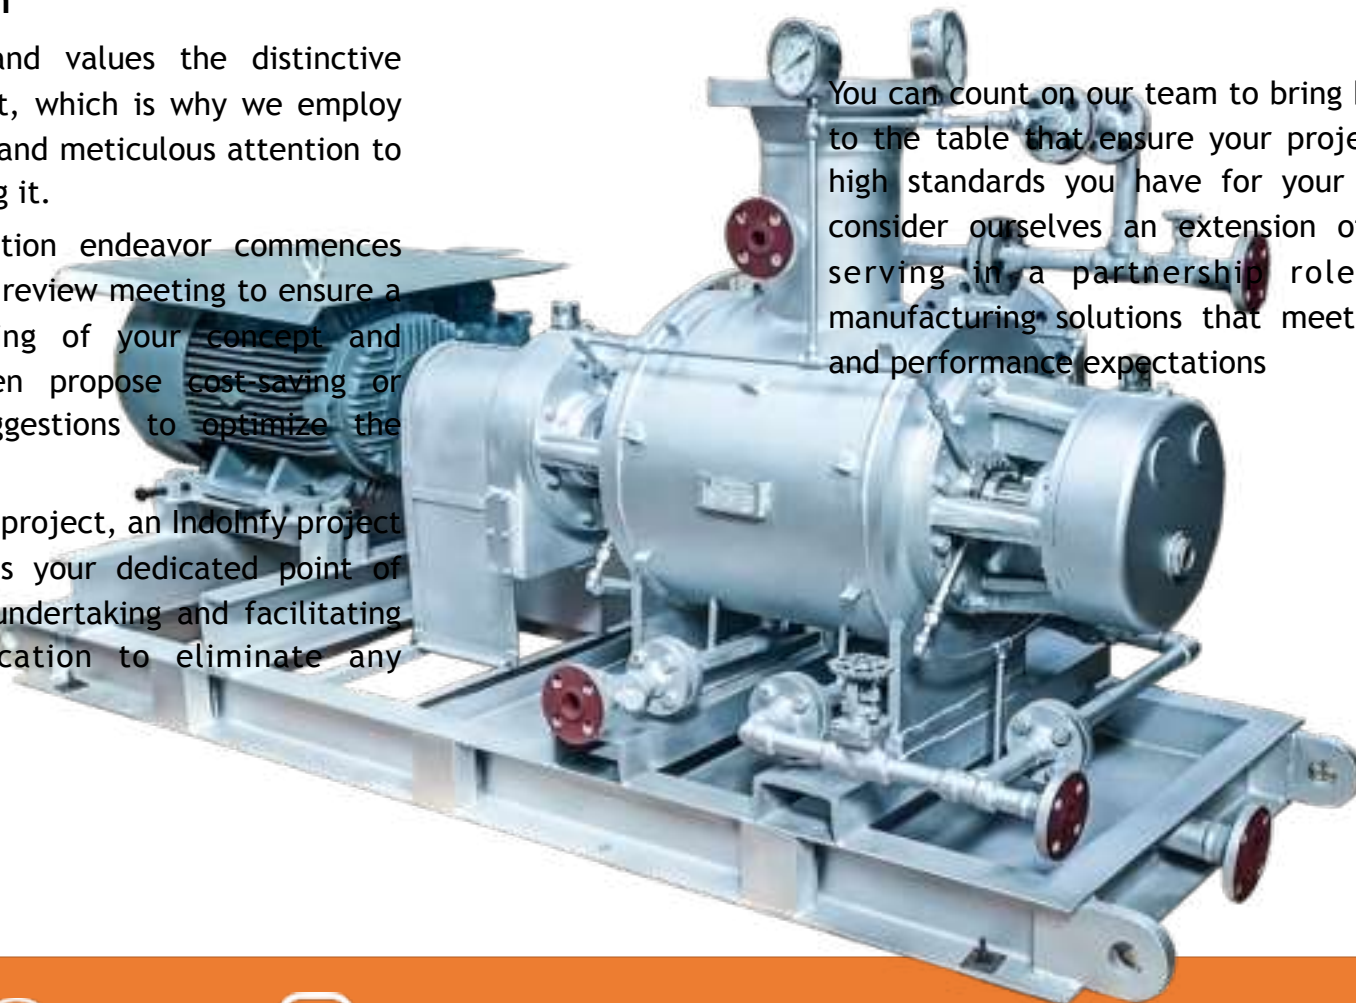

Custom | Flexibility | Ease

### Custom Fabrication

Indoinfy recognizes and values the distinctive nature of your project, which is why we employ exceptional expertise and meticulous attention to detail when fabricating it.

Every custom fabrication endeavor commences with a comprehensive review meeting to ensure a thorough understanding of your concept and design. We may even propose cost saving or manufacturability suggestions to optimize the process.

Throughout the entire project, an Indoinfy project manager will serve as your dedicated point of contact, guiding the undertaking and facilitating consistent communication to eliminate any unexpected surprises.

You can count on our team to bring best practices to the table that ensure your project meets the high standards you have for your business. We consider ourselves an extension of your team, serving in a partnership role to deliver manufacturing solutions that meet your quality and performance expectations

**Integration | Installation | Savings**

**Customized Skid Mounted Systems  
for all of your project requirements**

### Skid Mounted Systems:

IndoInfy's Turnkey Skid-Mounted Systems - Seamless Integration, Rapid Installation, and Tangible Cost Savings.

Experience hassle-free installation and significant savings in downtime with IndoInfy's turnkey systems. Our solutions arrive fully tested and ready to connect, eliminating the need for time-consuming troubleshooting. Enjoy the convenience of one-piece delivery, while benefiting from easier transportation, quicker installation, and tangible cost savings that positively impact your bottom line.

Discover the versatility of our skid-mounted systems, including process, cooling, filtration, pumping, treatment, chemical treatment, modular piping, and pilot plant skids. Each system is meticulously designed for seamless integration into your existing infrastructure, ensuring a smooth and efficient setup.

In addition to our core capabilities, we offer comprehensive services, including project management, installation, and ongoing support. Our dedicated team is committed to providing exceptional customer service, timely communication, and a seamless experience from the initial consultation to the successful completion of the project.

With IndoInfy, you can have complete confidence in the quality and reliability of our turnkey systems and experience the convenience, speed, and cost-effectiveness that comes with it. Say goodbye to downtime and installation headaches, and welcome seamless integration, rapid deployment, and substantial cost savings.

We are ready to collaborate with you and deliver a solution that exceeds your expectations.
