About Us

Established in the year 1991, we, Aquarius Technologies Pvt. Ltd. are a well established manufacturer, exporter, trader and supplier of a wide assortment of heavy duty Construction Equipment. Our offered range includes Concrete Flooring, Compaction, Plastering, Concrete Scarifier, Plate Compactor, Double Drum Roller, Screed Vibrators, Vacuum Dewatering and many more. These are designed and developed by a experienced team of engineers in compliance with industry set quality parameters and standards. We have a quality analyzing team, which makes sure to examine our products on different set quality parameters to ensure flawlessness. This process is carried out before delivering the products at the clients end. Our products are widely appreciated by the customers for their rugged construction, excellent operation and corrosion resistance.

Our firm started its business under license from TREMIX AB, SWEDEN by producing Tremix Vacuum Dewatering System. With the passage of time, we expanded our business and started offering construction equipment and also rendering services related to the same. Today, we are also acknowledged as a class service provider of Commissioning and After-sales-service. The offered services are completely reliable and authentic. We are backed by a dedicated team of professionals who are capable of meeting the wide requirements of the customers in promised time frame thus improving our goodwill and reputation. Our domain expertise has assisted us in building partnership with some of the most reputed companies of the industry which includes Turbosol, MBW Inc., Somero Enterprise, Tremix and many more for procuring some of our products and meeting market demands. Further, we are holding record of providing machines to projects of various national importance such as Delhi Metro Rail, Domestic/ International Airports, National Highway Development Programme, Prime Minister's Gram Sadak Yojana, LNG Terminals, Nuclear Power Projects, etc.
